

SHARE Transitional Member Fees

Proposed 2/2/16

SHARE Transitional member libraries will be expected to pay the following fees when they make the commitment to join the library automation consortium:

- A \$4,000.00 implementation fee, which offsets the cost of account setup, training, travel, and time for SHARE staff involved.
- ½ the regular membership fees are billed during the July following the transitional member's commitment to join SHARE, unless the new member library is live on the integrated library software at or near the beginning of the next fiscal year. If so, full member fees will be billed.
- If it is determined that it is possible to migrate records from its current integrated library software (ILS) to the SHARE ILS, the transitional member library will pay the fees charged by the ILS providers, plus 10% to offset the cost of SHARE staff time involved in the process.
- If data migration is not possible, the transitional library will pay a \$2,500.00 fee for SHARE cataloging staff to complete retrocon cataloging. Retrocon cataloging refers to the process of finding or creating a bibliographic record for an item in OCLC's Connexion, and then exporting the record into the integrated library software. The library will be responsible for attaching the item record to the bibliographic record in the database.
