## Polaris Leap Overview

The Polaris Leap web application is used to perform the most common library functions, such as registering new patrons, checking out materials, or placing items on hold. Leap is optimized for a desktop computer, but it can be used on a tablet device that can access a modern Web browser, such as an iPad® or Surface™ tablet. Leap is not designed for mobile phones.

Currently Leap's function is not to replace the Polaris ILS, but to complement it. Because Leap uses the existing database and business objects, changes made in Leap appear in the Polaris ILS Staff Client and vice versa.

In addition, the circulation functions available in Leap are controlled by the same Polaris Administration settings as the corresponding functions in the Polaris ILS Staff Client. This includes staff permissions, which control tasks in Leap in the same way as in the staff client, with a few exceptions that are noted in the following section: "Staff User Permissions in Leap" on page 4.

With Leap running on a mobile device, librarians can interact with their patrons without the limits and barriers inherent in a purely desktop system. Instead of patrons standing in line to check out or pay a fine, librarians can get out from behind the desk and serve patrons wherever they are in the library or out in the community. As a Polaris ILS customer, all you need is Leap and an internet connection to extend library services in unique ways.

- "Search for Records in Leap" on page 18
- "Open a Patron, Item, or Bibliographic Record in Leap" on page 52
- "Receipt Printing from Leap" on page 19

## Requirements

Polaris Leap runs on desktops, notebooks, and tablets with the requirements listed below. Leap is not designed to operate on cell phones.

### Operating Systems / Web Browsers

- The web browser must support HTML 5.
- Windows 7/8/8.1 (includes Surface tablets)
- Microsoft Internet Explorer 10/11
- Google Chrome v36+
- OS X (recommend Mavericks 10.9 / Mountain Lion 10.8)
- Safari 7+
- Google Chrome v36+
- iOS v7+ (iPad 3rd gen+, not phones)
- Safari 6+
- Chrome v36+

### Polaris ILS Version

Polaris Integrated Library System version 5.0.

**Important:**

Recently implemented circulation functionality in Polaris may not be available for this version of Leap.

### Camera

The camera is available to take patron photographs for the following:

- Windows 7/8/8.1 (desktop and Surface Pro only)
- Google Chrome v36+
- OS X
- iOS v7+
- Safari 6+

**Note:**

When using Chrome, you must select the **Allow** button in the address bar to permit Leap to use the camera.

You can select the camera icon in the address bar to view additional options, such as selecting the camera.

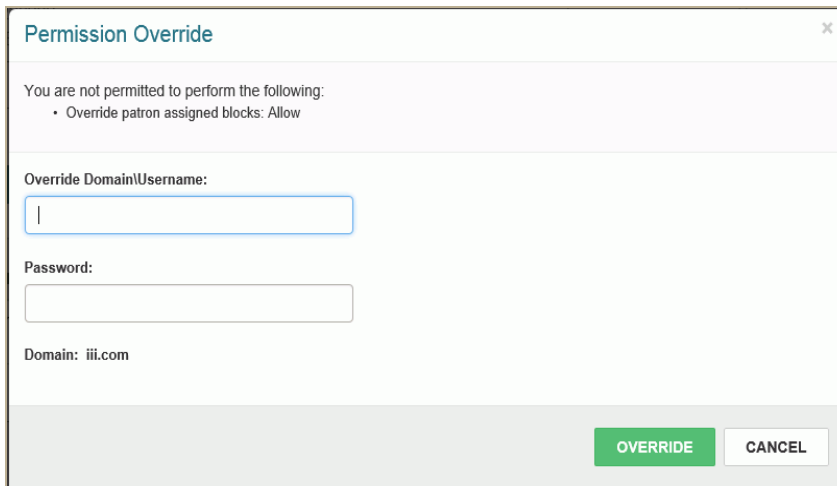

While in Chrome, go to *chrome://settings/contentExceptions#media-stream* to manage media settings.

## Staff User Permissions in Leap

User permissions are checked according to settings in Polaris Administration. For example, if a user has the permission to register patrons in the Polaris staff client, she will be able to register patrons in Leap.

In general, when users perform a task in Leap, permissions are checked in the same way as they are for the equivalent task in the Polaris ILS. However, for the following tasks, permissions checking is different in Leap:

- **Modify patron accounts** - In the Polaris ILS, if a staff member does not have permission to modify patron accounts, no override is available. In Leap, authorized users can override the permission block if a staff member does not have permission to modify patron accounts.
- **Access the patron workform** - In Leap, the patron workform contains both registration and status information, so the user must have at least Patron status: Access or Patron Registration: Access permissions to access the patron workform.
- **Find Tool patron search** - When a staff member scans a patron's barcode or searches for a patron record, and the staff member does not have permission to access that patron's record, a message indicates that the barcode was found, but that the record cannot be opened because the staff member does not have the required permissions. The patron record can be opened for checkouts only.
- **Override permission blocks** - When a staff member has insufficient permissions to do a task in Leap, an Override box lists all the permissions the staff member lacks. A staff member with the Override permission can enter their credentials to override the permissions checking and allow the user to continue with the task. The override will continue in effect for the user's logged in session unless the override is cleared.

The image shows a 'Permission Override' dialog box. At the top, it says 'You are not permitted to perform the following:' followed by a bullet point: 'Override patron assigned blocks: Allow'. Below this, there are three input fields: 'Override Domain\Username:', 'Password:', and 'Domain: iii.com'. At the bottom right, there are two buttons: 'OVERRIDE' (green) and 'CANCEL' (white).

- **Clear Overrides** - If you have overridden blocks, but you do not want to keep them in the cache for the logged in session, select your user ID in the upper right corner of the Leap title bar, and select Clear Overrides.

## Signing in to Polaris Leap

When you sign in to Leap the first time, you enter your user name and password. Another dialog box opens where you select your branch and workstation (LEAP-4-letter code). After signing in the first time, you only need to enter your username and password; your branch and workstation are selected automatically.

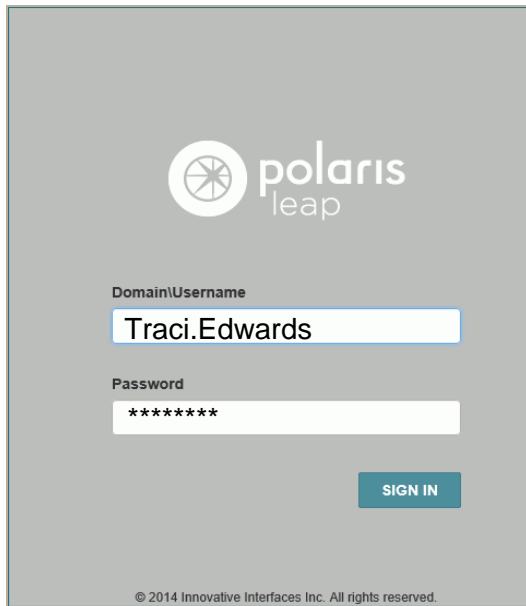

**Important:**

Your username cannot contain spaces.

To sign in to Polaris Leap:

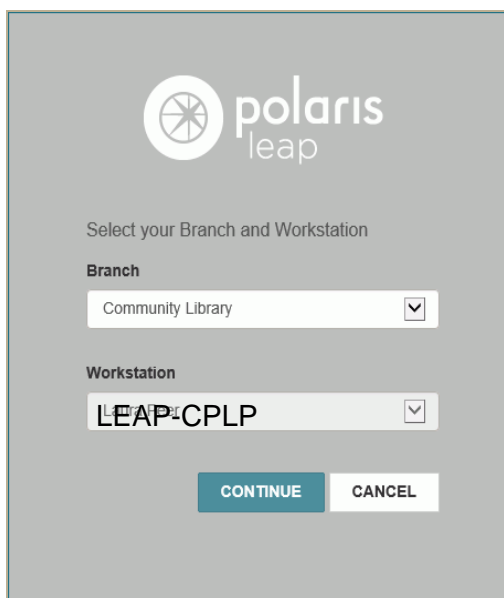

1. Select the Leap icon or shortcut.

The sign in page opens.

A screenshot of the Polaris Leap sign-in dialog box. The dialog has a gray background. At the top center is the Polaris Leap logo, which consists of a circular icon with a stylized 'L' and the text 'polaris leap' to its right. Below the logo, there are two input fields. The first is labeled 'Domain\Username' and contains the text 'Traci.Edwards'. The second is labeled 'Password' and contains a series of asterisks '\*\*\*\*\*'. To the right of the password field is a blue button with the text 'SIGN IN' in white. At the bottom left of the dialog, there is a small copyright notice: '© 2014 Innovative Interfaces Inc. All rights reserved.'

2. Enter your user name in the **Domain\Username** box.
3. Enter your password in the **Password** box.
4. Select **SIGN IN**.

Another page opens where you select your branch and workstation.

The image shows a login dialog box for Polaris Leap. At the top is the Polaris Leap logo. Below it, the text "Select your Branch and Workstation" is displayed. There are two dropdown menus: "Branch" with "Community Library" selected, and "Workstation" with "LEAP-CPLP" selected. At the bottom are two buttons: "CONTINUE" and "CANCEL".

5. Select your branch in the **Branch** drop-down list box.
6. Select your LEAP workstation in the **Workstation** drop-down list box--"LEAP-library 4-letter code".
7. Select **CONTINUE**.

The Circulation page opens.

The cursor is in the quick search box.

8. Do one of the following:
  - Select **CHECK IN** to go to the Check In page and scan item barcodes to check the items in.
  - Scan a patron barcode in the quick search box.
  - Scan an item barcode in the quick search box.
  - Start entering search criteria to see automatic suggestions for patron and bibliographic records
  - Select **Find** to use the Find Tool.

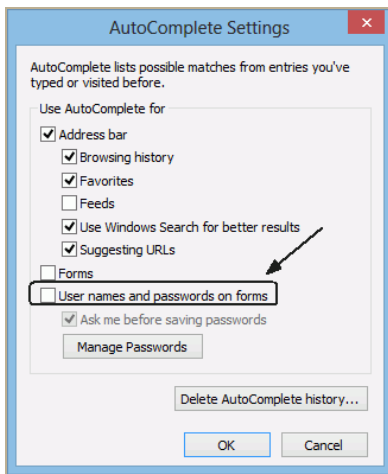

## Browser and Ipad® Issues

You may encounter the following browser and iPad display issues when using Leap.

### Patron Password Validation in Internet Explorer 11

When you access a patron record in Internet Explorer 11 (IE11) that has a patron password entered, the second password field (password validation) is blank. When you attempt to save the record, an alert displays: The patron record was not saved. The passwords do not match.

To prevent this from happening when using Leap in Internet Explorer 11, disable the Autocomplete feature for Usernames and Passwords. This setting is under Tools, Internet Options, Content tab, AutoComplete options, Settings. On the AutoComplete Settings dialog box, clear the User name and passwords on forms check box so that this option is disabled.

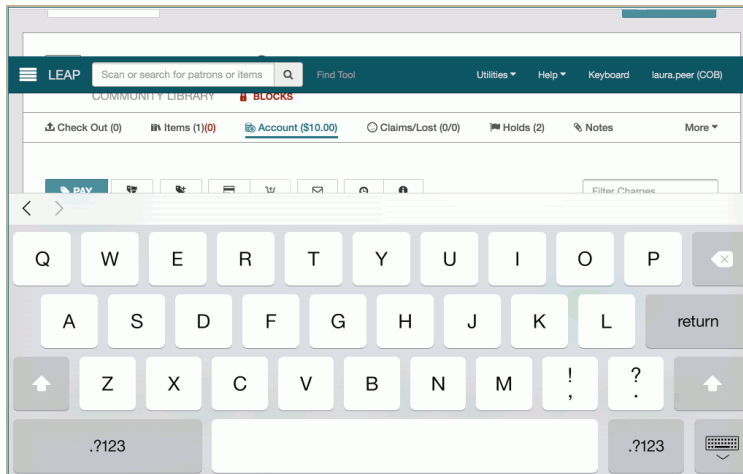

For more information on this issue, which Microsoft has identified as a known bug in IE 11, see:

<http://connect.microsoft.com/IE/feedback/details/811458/ie-11-second-password-input-not-showing-as-being-populated-for-ssl-page-with-autocomplete-for-passwords-enabled>

### iPad® Display

Leap is designed to be displayed in landscape (horizontal) view on an iPad.

When you waive a charge, and start to enter a free text block or note, the iPad touch keyboard opens. If you swipe downward, the Leap header is not at the top of the page. Upon closing the iPad's touch keyboard, the Leap header goes back to the top of the page.

You may also find that buttons are obscured by the Leap header. For example, if you open the Find Tool when you first log in, but then cancel the search, the Check In and New Patron buttons may be hidden. To re-display the buttons, swipe downward.

## Leap User Interface

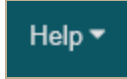

This section describes the general user interface elements that are available throughout the Leap application.

### Leap Header

The Leap header is displayed when you log into Leap.

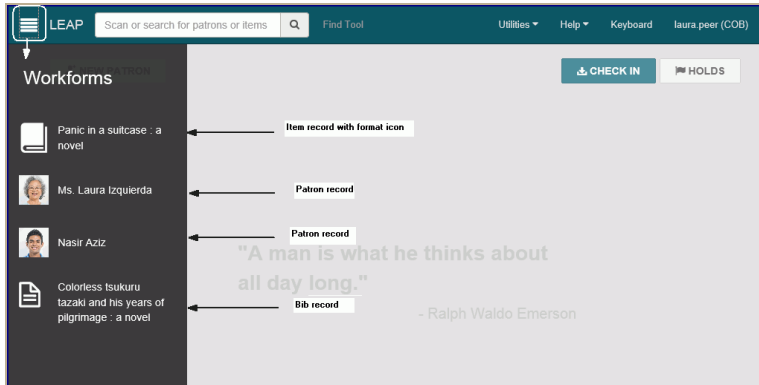

The Leap header contains the following elements:

Element	Description
	Select the slide-out button to access a menu. When you click-/tap this button in the Leap header, the Workforms menu opens.  See "Workforms Menu" on page 10.
	Enter search criteria to find patrons or titles (bibliographic records).  See "Search for Records in Leap" on page 18.
	Opens the Find Tool to search for patron, bibliographic, and item records.  See "The Leap Find Tool" on page 34
	Select Utilities to access the Holds Picklist.  See "Holds Picklist " on page 159.
	Opens a menu with the options: <ul style="list-style-type: none"> <li>• <b>Leap Topics</b> - Select this option to open the Leap online Help.</li> <li>• <b>Keyboard</b> - Select this option to see the list of keyboard shortcuts.</li> <li>• <b>About</b> - Select this option to see details about the Leap application.</li> </ul> See "Help Menu" on page 10.
	Select your username to access user settings or to log out of Leap.  See "Leap User Interface" on page 9.

## Workforms Menu

You can use the workforms menu to move among open workforms. Multiple workforms can be open simultaneously.

## Help Menu

Select **Help** in the Leap header to access the Leap online Help, keyboard shortcuts, and information about Leap.

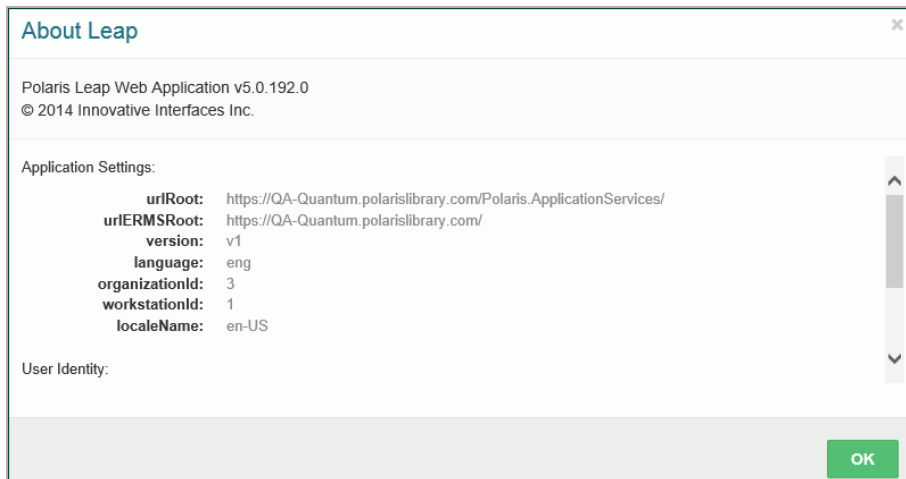

- Select **Leap Topics** to access online Help. If the contents and index tabs are not visible, select the slide-out button in Help to see the tabs. To return to the topic view, click/tap the slide-out button.

- Select **Keyboard** to see a list of keyboard shortcuts. The **Actions** shortcuts are used to create a new patron, check in an item, or position the cursor in the filter box on the current view. The **Patron Views** shortcuts go to a certain view in the patron's record.

Keyboard Shortcuts	
<i>To execute a keyboard shortcut, press ctrl+shift, followed by the appropriate key:</i>	
<b>Actions</b>	
New Patron	ctrl+shift+y
Check In	ctrl+shift+/
Filter	ctrl+shift+f
<b>Patron Views</b>	
Check Out	ctrl+shift+1
Items	ctrl+shift+2
Account	ctrl+shift+3
Claims/Lost	ctrl+shift+4
Holds	ctrl+shift+5
Notes	ctrl+shift+6
History	ctrl+shift+7
Associations	ctrl+shift+8
Notices	ctrl+shift+9
Registration	ctrl+shift+;

- Select **About** to see details about the Leap application and the logged-in user.

## User Options

When you select your username in the Leap header, the following options are available: Settings and Logout

Select **Settings** to open the Settings page. The Settings page has two views: *Print Options* and *Special Loan*. Use the Print Options page to set the printing options for each workform. For information on using the Print Options view, see "Receipt Printing from Leap" on page 19.

 The "Settings" page with the "Print Options" tab selected. It contains several sections of checkboxes and radio buttons:
 

- Check in:** ☐ Fine receipt, ☐ In-transit slip, ☐ Hold slip, ☐ Hold call slip, ☐ Hold pickup slip
- Check out:** ☐ Check out receipt, ☐ Fine receipt, ☐ only if no eReceipt, ☒ In-transit slip, ☐ Holds only, ☐ Hold slip, ☐ Hold call slip, ☐ Hold pickup slip
- Patron status:** ☐ Check out receipt, ☐ Fine receipt, ☐ In-transit slip, ☐ Hold slip, ☐ Hold call slip, ☐ Hold pickup slip
- ILL requests:** ☐ In-transit slip, ☐ Print ILL Slip, ☐ Print ILL Pickup Slip
- Hold requests:** ☐ In-transit slip, ☐ Hold slip, ☐ Hold call slip, ☐ Hold pickup slip
- Item record:** ☐ Fine receipt, ☐ In-transit slip, ☐ Hold slip, ☐ Hold call slip, ☐ Hold pickup slip

 At the top right are "SAVE" and "CLOSE" buttons.

Use the Special Loan page to set a special loan period that remains in effect while you are logged in. To set a special loan period to apply to all check-outs, select the Apply to all check-outs check box, and select a date in the calendar or type a number, and select Days, Hours, or Minutes in the drop-down list box. For more information, see "Set a special due date/loan period during check out" on page 156.

 The "Settings" page with the "Special Loan" tab selected. It features:
 

- An "Apply to all check-outs" checkbox.
- A date selection interface showing a calendar for December 2014 with the 11th selected.
- A "Loan period:" input field containing the number "119".
- A drop-down menu currently set to "Days".
- "SAVE" and "CLOSE" buttons at the top right.

Select **Logout** to close Leap.

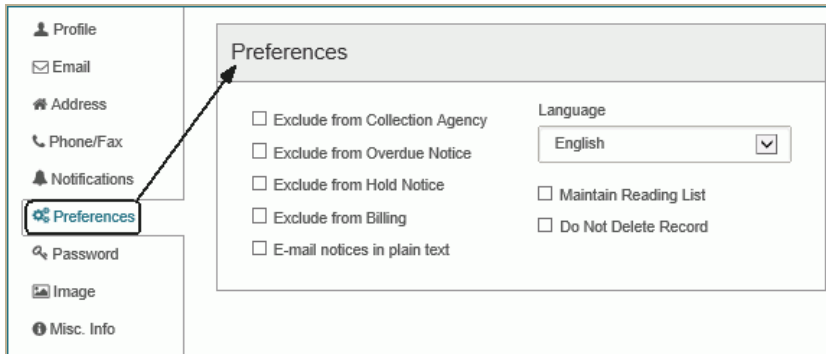

## Options Menus

Options menus provide selections for additional functions, such as the column and filter options for the Find Tool.

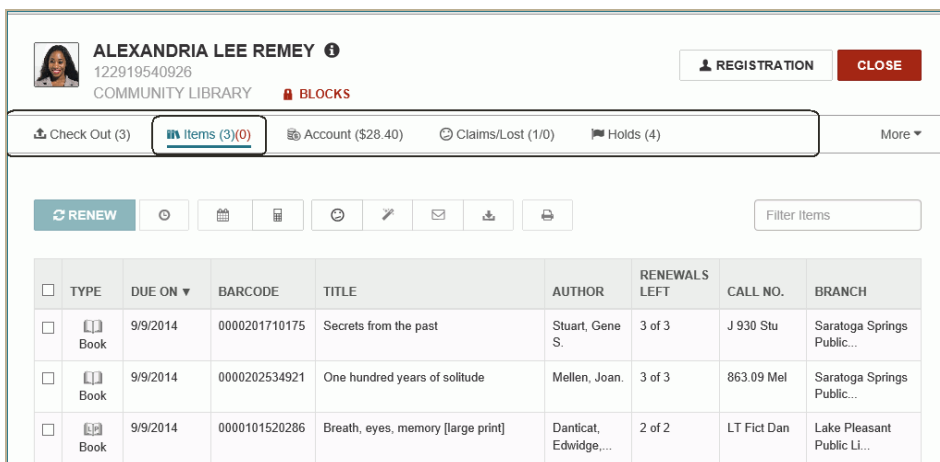

## Navigation Menus

You can move through a patron record in Leap by selecting an option in the left navigation menu.

## View Bars

View bars provide links to views and display information such as the number of items checked out to the patron in the current session; the total number of items out and overdue items; the patron's financial balance; the number of items claimed or lost; and the number of holds. To go to a view, select one of the links. For example, when you select a patron record, you can select **Items** to go to the list of items the patron has checked out. The selected summary bar option is blue.

## Button Toolbars

Button toolbars are displayed at the top of lists, such as the list of items out, and contain buttons for performing actions items in the list.

## Required Fields

Fields marked with an asterisk are required.

Barcode*
<input type="text"/>

## Check Boxes

Some check boxes are used to apply an option, such as maintaining a reading list for a patron.

Preferences	
<input type="checkbox"/> Exclude from Collection Agency	Language <div>English</div>
<input type="checkbox"/> Exclude from Overdue Notice	<input checked="" type="checkbox"/> Maintain Reading List
<input type="checkbox"/> Exclude from Hold Notice	<input type="checkbox"/> Do Not Delete Record
<input type="checkbox"/> Exclude from Billing	
<input type="checkbox"/> E-mail notices in plain text	

Other check boxes are used to select a line or lines in a list view and then apply the same function to the selected lines. If the function can be applied to multiple line items, you can select the check box in the list view header to select all the lines.

For example, select the check box next to a charge, and select the **Pay** button to pay the charge. When you select the line item, the command button becomes brighter, which indicates the function is available.

## Command Buttons

Buttons, such as **CHECK IN**, are used to perform an action.

## Plus Buttons

Buttons labeled with a plus sign, such as **ADDRESS**, expand the area on the page so you can enter information.

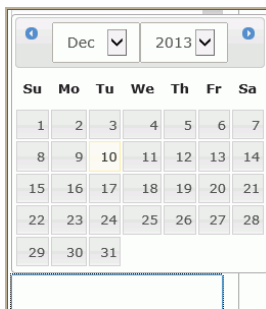

Address Type Home ▼	City <input type="text"/>
Postal Code <input type="text"/>	State <input type="text"/>
Street Address <input type="text"/>	County <input type="text"/>
Street Address Line 2 <input type="text"/>	Country USA ▼

## Drop-Down List Boxes

Select an entry in a drop-down list box.

## Date Fields

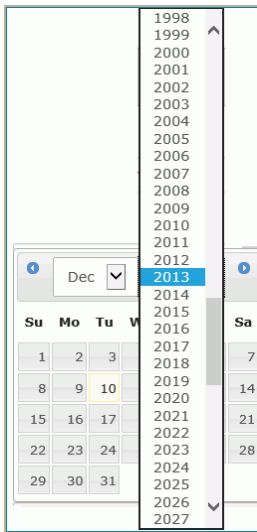

When you click or tap inside a date field, a calendar control appears. To locate and select a date, do the following:

- Select the date in the current month.
- Select the left arrow to go to the previous month.
- Select the right arrow to go to the next month.
- Select the month at the top of the calendar to open the month list, and select the month.

- Select the year at the top of the calendar to open the year list, and select the year.

## Message Boxes

Green message boxes appear when an action was successful, and red message boxes appear when there is a problem with an action or a blocking condition prevents the action from occurring. In most cases, messages in Leap appear according to the same conditions under which messages appear in the Polaris ILS.

ACTION	TITLE	FORMAT	NUMBER	DATE	STATUS	UNARCH	SEVER	DATE	GROUP
<input type="checkbox"/>	Daley, Robert.	Prince of the the true stor	Hold request(s) have been created.				Community	1	

## Summary Bars

A summary bar displays at the top of list views, such as the Charges view and the Claims view.

## Search for Records in Leap

You can search for records in Leap in the following ways, depending on the type of record:

- Scan an item or patron barcode to locate a specific item or patron record.

- Start typing in a search box, and automatic suggestions appear, if available.

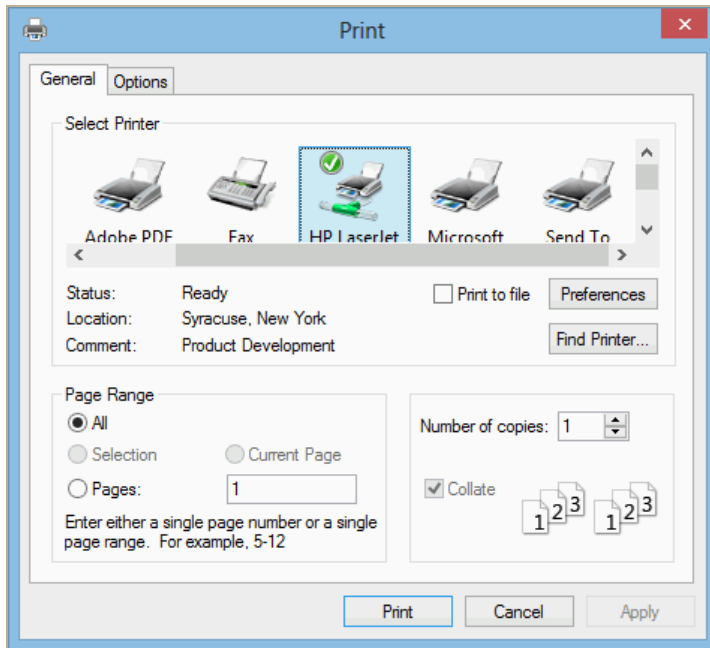

A screenshot of a search interface. At the top is a search box containing the text "frederi". To the right of the text is a small "x" icon and a magnifying glass icon. Below the search box is a list of suggestions. The first section is titled "Patron Suggestions" and lists several addresses: "40 fredericks road, notown, ny, 00000", "49 fredericks rd, notown, ny, 00000", "72 fredericks road, boca raton, fl, 33432", "lake geo elem, fredericksbrg, va, 22401", "glens falls hospital, fredericksbrg, va, 22401", "54 charlton rd, fredericksbrg, va, 22401", "14 frederick st, winter haven, fl, 33880", and "frederick w killeen, esq, alexandria, va, 22310". The second section is titled "Bibliographic Suggestions" and lists several names and dates: "chopin, Frédéric, 1810-1849", "chopin, frederic, 1810-1849", "douglass, frederick, 1818-1895", "forsyth, frederick, 1938", "delderfield, r.f ronald frederick 1912-1972", "remington, frederic, 1861-1909", "delius, frederick, 1862-1934", and "benson, e.f edward frederic 1867-1940".**Note:**

Automatic suggestions are updated nightly. If you make a change to a patron's record, the changes will not be reflected in the automatic suggestions until the next day.

- Use the Find Tool, which is available by selecting **FIND** on the first page when you log in and in various pages throughout the application. See "The Leap Find Tool" on page 34

## Receipt Printing from Leap

Printing receipts from Leap depends on the options set for your library organization in Polaris Administration, the workform settings in the Polaris ILS and in Leap, and the receipt printer configuration. When the receipt printer has been configured, and the workform print options are set to print a receipt for an action, the print dialog box opens automatically when the user performs the action.

### Polaris ILS Workform Print Options

Receipts and slips are printed from Leap according to the settings in Polaris Administration and the workform print options, which can be set in the Polaris staff client or in Leap. For information on setting workform print options in the Polaris ILS staff client, see the Polaris online Help.

- The Check-In workform Print Options are used when the request is filled from the Check In view.
- The Patron Status workform Print Options are used when the request is filled from the Items Out view.
- The Hold Request workform Print Options are used when the request is filled from the Hold view or the Holds List view.

See also:

- "Set user print options in Leap" on page 20
- "Receipt Printer Configuration" on page 21

## Set user print options in Leap

To set the print options in Leap:

1. Select your user ID in the upper right corner of the page.
2. Select **Settings**.

The Settings page opens with the Print Options view displayed.

The screenshot shows the Leap application interface. At the top, there is a header bar with the Leap logo, a search bar, and user information. A dropdown menu is open, showing 'Settings' and 'Logout'. The main content area is titled 'Settings' and has two tabs: 'Print Options' (selected) and 'Special Loan'. Below the tabs, there are three columns of settings, each with a title and a list of options with checkboxes or radio buttons.

Check in	Check out	Patron status
<input checked="" type="checkbox"/> Fine receipt	<input checked="" type="checkbox"/> Check out receipt	<input checked="" type="checkbox"/> Check out receipt
<input type="checkbox"/> only if no eReceipt	<input checked="" type="checkbox"/> Fine receipt	<input checked="" type="checkbox"/> Fine receipt
<input type="checkbox"/> In-transit slip	<input type="checkbox"/> only if no eReceipt	<input type="checkbox"/> only if no eReceipt
<input type="checkbox"/> Holds only	<input type="checkbox"/> In-transit slip	<input type="checkbox"/> In-transit slip
<input checked="" type="radio"/> Hold slip	<input type="checkbox"/> Holds only	<input type="checkbox"/> Holds only
<input type="radio"/> Hold call slip	<input type="radio"/> Hold slip	<input checked="" type="radio"/> Hold slip
<input type="radio"/> Hold pickup slip	<input type="radio"/> Hold call slip	<input type="radio"/> Hold call slip
	<input checked="" type="radio"/> Hold pickup slip	<input type="radio"/> Hold pickup slip

ILL requests	Hold requests	Item record
<input type="checkbox"/> In-transit slip	<input type="checkbox"/> In-transit slip	<input checked="" type="checkbox"/> Fine receipt
<input type="radio"/> Print ILL Slip	<input checked="" type="radio"/> Hold slip	<input type="checkbox"/> only if no eReceipt
<input type="radio"/> Print ILL Pickup Slip	<input type="radio"/> Hold call slip	<input type="checkbox"/> In-transit slip
	<input type="radio"/> Hold pickup slip	<input type="checkbox"/> Holds only
		<input checked="" type="radio"/> Hold slip
		<input type="radio"/> Hold call slip
		<input type="radio"/> Hold pickup slip

3. Select the receipts and/or slips that you want to be printed.

### Important:

The receipt printers must be configured to print receipts and slips from Leap. See "Receipt Printer Configuration" on page 21.

## Receipt Printer Configuration

Before you can print receipts from Polaris Leap, the receipt printer must be configured correctly. To set up receipt printing, configure the receipt printer, verify that the page size is available, create a custom paper size if the page size is not available, and set up the page in the browser. The table below shows the receipt printers that were tested with Leap using the operating systems, drivers, and browsers indicated.

Receipt Printer	Windows 7	Windows 8.1	Mac OS Xv10
<b>Star TSP600</b>	Driver: Star TSP600 Cutter (TSP643) Chrome, IE10, IE11		Star 3.0 Driver for Mac  Chrome, Safari
<b>Epson TM-T88IV</b>	  Chrome, IE10, IE11	EPSON TM-T88IV ReceiptE4 Chrome, IE11

## Configure a receipt printer for IE10 or IE 11 on Windows 7 or 8.1

To configure the receipt printer for IE10, IE11 on Windows 7 and 8.1:

1. In the Control Panel, open the Devices and Printers window.
2. Right-click on the printer and select Printer Properties.

The Properties window opens.

3. Select the Device Settings tab.
4. The Device Settings tabbed page is displayed.
5. Select **Form To Tray Assignment**, and select **FRICITION: 72mm x 200 mm**.

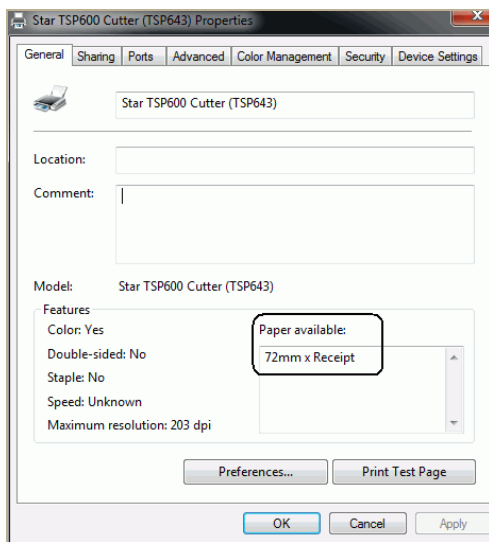

6. Click **OK**.
7. On the Devices and Printers window, right-click the printer, and select **Printing Preferences**.
8. Click **Advanced**.

The Advanced Options window is displayed.

9. Select **Paper/Output**, and select **Paper Size: 72mm x 200mm**.

10. Click **OK**.
11. Check the Printer Properties window to see that the correct paper size is listed under **Paper available**.

**Note:**

If the printer driver does not list the expected page size, create a custom form page and select that form page instead. (This was necessary for the Epson printer on Windows 8.1.) See "Create a custom receipt size for printing from IE on Windows 7 or 8.1" on page 24.

## Create a custom receipt size for printing from IE on Windows 7 or 8.1

To create a custom paper size for IE:

1. Open the Devices and Printers window, right-click the printer, and select Printing Preferences.

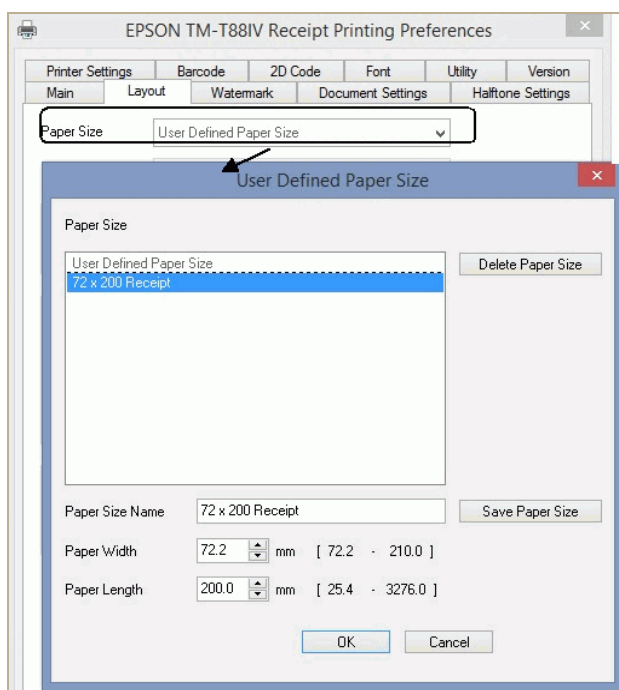

The Printing Preferences window opens.

2. Click the Layout tab.

The Layout tabbed page is displayed.

3. In the Paper Size box, select User Defined Paper Size

The User Defined Paper Size dialog box opens.

4. Define the paper size and select **Save Paper Size**.

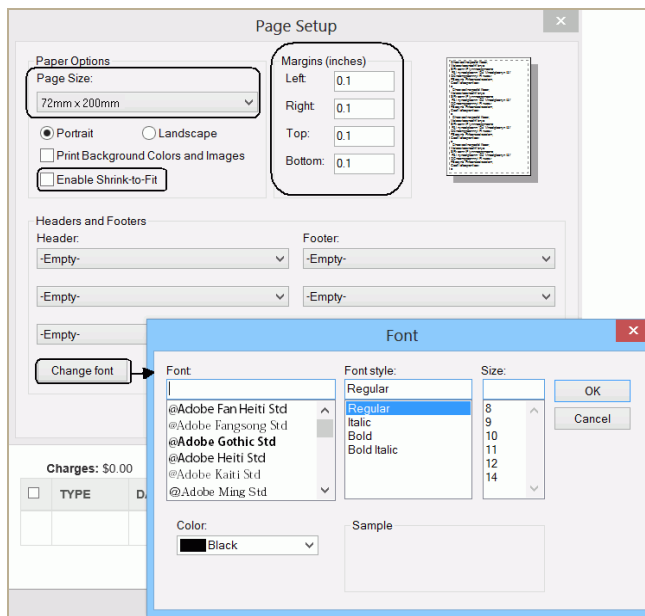

## Set up the receipt page in IE10 or IE11

To set up the page in Internet Explorer 10 or IE11:

1. In the browser window, select **File, Page Setup**.

The Page Setup dialog box opens.

2. Make sure these options are set correctly:
  - **Page Size - 72mm x 200mm**
  - **Margins - 0.1** (for all)
  - **Enable Shrink-to-fit** - This box should not be checked.
  - **Headers and Footers** - Empty

3. Select **OK**.

## Configure a receipt printer for Chrome on Windows 7 or 8.1

To configure the receipt printer for Chrome on Windows 7 and 8.1:

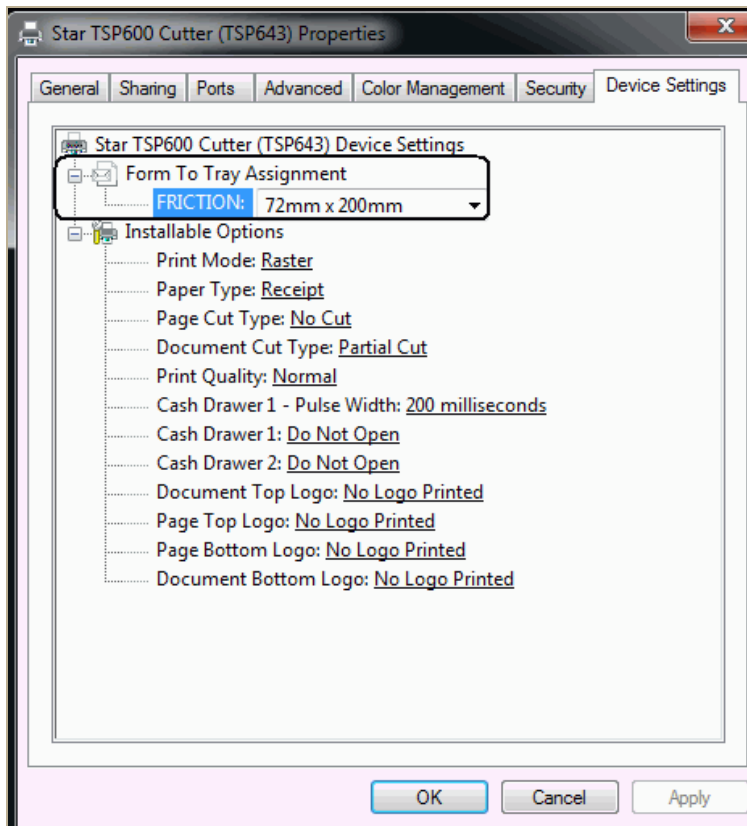

1. In the Control Panel, open the Devices and Printers window.
2. Right-click on the printer and select **Printer Properties**.

The Properties window opens.

3. Select the **Device Settings** tab.

The Device Settings tabbed page is displayed.

4. Select **Form To Tray Assignment**, and select **FRICITION:72mm x Receipt**.

5. Click **OK**.
6. On the Devices and Printers window, right-click the printer, and select **Printing Preferences**.
7. Select **Advanced**.

The Advanced Options window is displayed.

8. Select **Paper/Output**, and select **Paper Size: 72mm x 200mm**.

**Note:**

If the printer driver does not list the expected page size, create a custom form page and select that form page instead. See "Create a receipt size for printing from Chrome on Windows 7 or 8.1" on page 29 (This was necessary for the Epson printer on Windows 8.1.)

## Create a receipt size for printing from Chrome on Windows 7 or 8.1

To create a custom paper size:

1. Open the Devices and Printers window, right-click the printer, and select **Printing Preferences**.

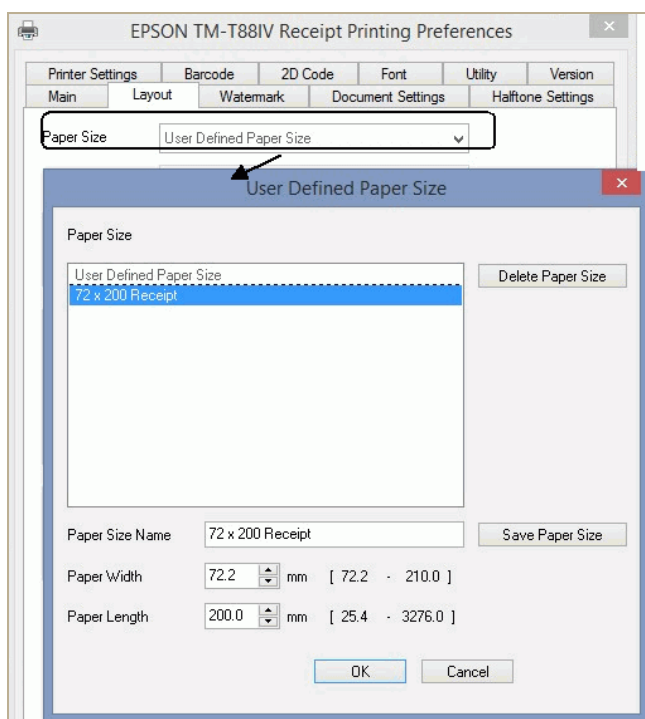

The Printing Preferences window opens.

2. Click the Layout tab.

The Layout tabbed page is displayed.

3. In the Paper Size box, select **User Defined Paper Size**.

The User Defined Paper Size dialog box opens.

4. Define the paper size and select **Save Paper Size**.

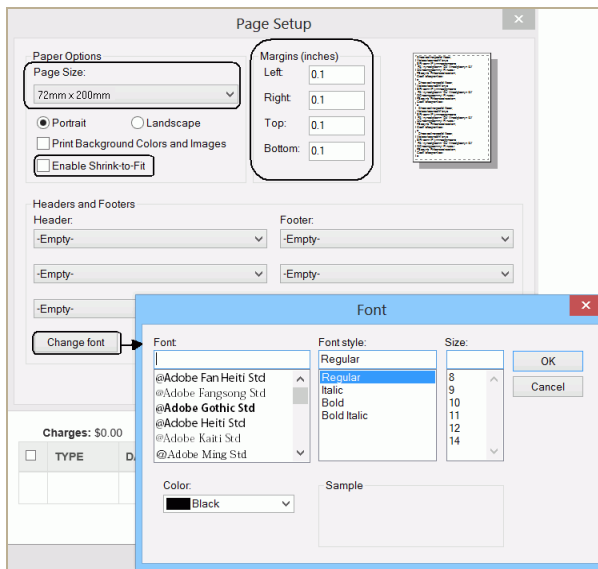

## Set up the receipt page in Chrome on Windows 7 or 8.1

To set up the page in Chrome:

1. In the browser window, select **File, Page Setup**.

The Page Setup dialog box opens.

2. Make sure these options are set correctly:
  - **Page Size - 72mm x 200mm**
  - **Margins - 0.1** (for all)
  - **Enable Shrink-to-fit** - This box should not be checked.
  - **Headers and Footers - Empty**

3. Select **OK**.

## **Configure a receipt printer for Chrome and Safari on Mac OS X**

To configure the receipt printer for Chrome and Safari on Mac OS X:

1. Open the Printer and Device dialog box.
2. Select the correct paper size for the printer.
3. If the printer driver does not list the paper size for the printer, create a custom paper size.

See "Create a receipt size for printing from Safari/Chrome on Mac OS X" on page 32.

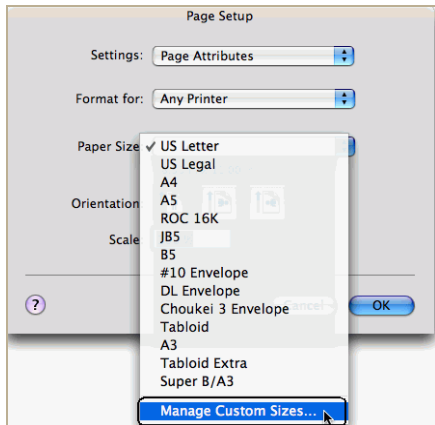

## Create a receipt size for printing from Safari/Chrome on Mac OS X

To create a custom page size for printing receipts from Chrome or Safari on Mac OS X:

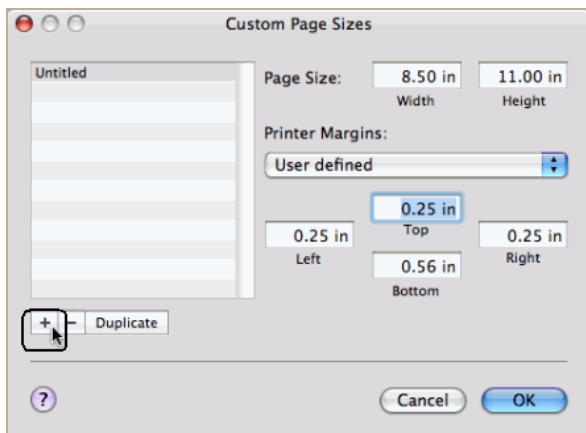

1. Press the **Command** and **P** keys or select **File | Page Setup**, or **File | Print** to open the Page Setup dialog box.

2. Open the drop-down list in the Paper Size box, and select **Manage Custom Sizes**.

The Custom Page Sizes dialog box opens.

3. Select the plus sign button in the bottom left corner of the dialog box.
4. Double-click the default name **Untitled**, and type a new more descriptive name, such as **No Margins**, and click **OK**.

5. Press **Command** and **P** to go to the Page Setup dialog box.

6. Click in the Paper Size box to open the drop-down list.
7. Select the custom paper size name, for example **No Margins**.

8. Select **OK**.

## The Leap Find Tool

The Leap Find Tool has many of the same search features as the Find Tool in the Polaris ILS staff client. However, for Leap 1.0, records listed in search results cannot be placed in record sets, bulk changed, deleted, or otherwise modified.

Find Tool permissions, such as those for setting up and saving SQL searches, are checked in the Leap Find Tool. In Leap 1.0, some functionality that exists in the Polaris ILS staff client Find Tool is not currently available, such as creating record sets. Other options, such as saving search results columns as part of a user's default, are available in Leap and not in the Polaris ILS staff client.

These are some of the differences between the Find Tool in the Polaris ILS and in Leap:

---

### Count Only Option

The count only option does not apply to Leap because the search results are returned in a virtual results set with a set maximum of 10,000 records that cannot be changed. The search results are displayed AND the count appears in the status bar. You do not need to select Ctrl+Alt+A to load all the search results.

#### Remote Database Searches

Currently, you cannot search external Z39.50 targets from the Polaris Find Tool.

---

### Search Results List

In Leap, there are no right-click menu options. Currently, you cannot select multiple entries in the search results and perform tasks, such as bulk changing records. You cannot link to other records from the Leap Find Tool or use the Preview feature to see circulation statistics for linked items from a bibliographic record listed in the Find Tool results list.

---

### Find Tool Tabs

In Leap 1.0, the only types of records you can search for are patron records, bibliographic records, and item records, and the tabs remain the same for all types of searches.

---

### Find Tool System Administration

Find Tool permissions are applied to the Leap Find Tool and the Polaris ILS staff client Find Tool. Other Administration settings that apply to the Polaris ILS staff client Find Tool do not apply to Leap. The following Find Tool Administration settings do not apply to Leap:

- Find tool/record set-to record set creation: Record set size warning threshold.
- Find Tool: Default number of records to return in a result set.
- Find Tool: Filter search results by permission.
- Find Tool: Use initial article table.
- Find Tool: Use language scoping display

The Polaris ILS performance issues that may be encountered with large search results sets do not apply to Leap. In Leap, the results are returned in a virtual result set with 10,000 as the set maximum. The results are filtered by permission by default without regarding the Administration setting.

Initial articles are not stripped out when exact match searches are done, and Leap does not use the initial article table. Currently, searches cannot be limited by language, and the language scoping display is not used. In addition, Leap has its own automatic suggestions and does not use the Cataloging parameter Auto suggest.

- "Sort Find Tool search results list" on page 51

## Do a basic search for a patron, item, or bibliographic record

To search for patron, item, or bibliographic records:

1. Open the Find Tool.
2. Select the record type if it is not already selected.

The screenshot shows the 'Find Tool - Patron' window. A dropdown menu for 'Patron' is open, listing 'Bibliographic Record', 'Item Record', 'Patron' (which is highlighted in blue), and 'Barcode'. The main search area has a header with 'Patron' and 'Basic Search' tabs, followed by search fields for 'Name (Last, First Middle)' and 'Keyword (All)'. There are icons for a star, a funnel, a search magnifying glass, and a menu. Below the search fields is a table with columns: Name, Street, City, S..., Zip, Birth D..., and Library. The status bar at the bottom says 'Ready' and has 'OPEN' and 'CANCEL' buttons.

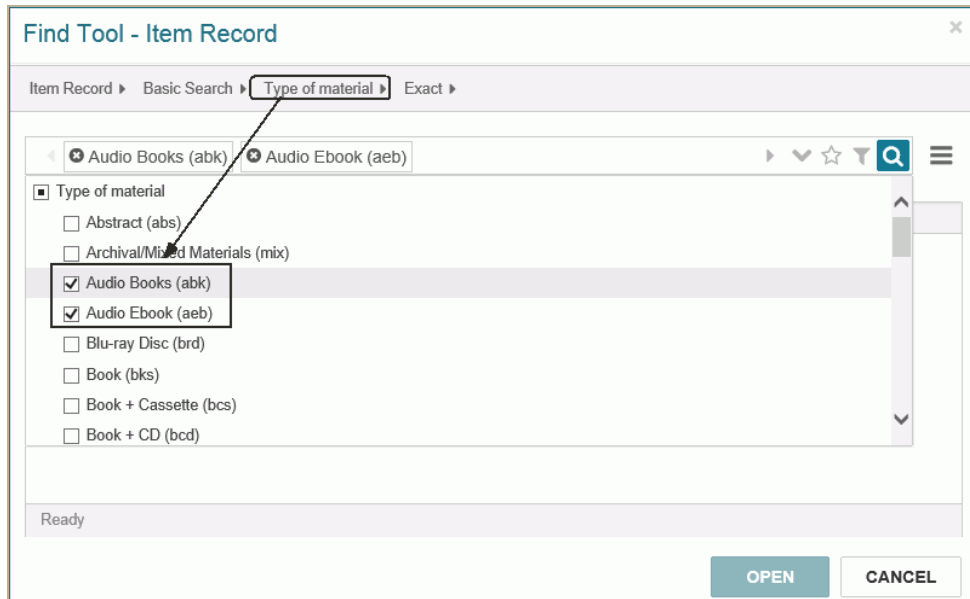

3. Select **Basic Search**.
4. Select the search by access point or qualifier.

The screenshot shows the 'Find Tool - Item Record' window. A dropdown menu for 'All keyword fields' is open, listing 'All keyword fields' (highlighted in blue), 'Assigned branch', 'Author', 'Barcode', 'Bibliographic control', 'Call number', 'Check-in location', 'Check-out date', and 'Circ status date'. The main search area has a header with 'Item Record' and 'Basic Search' tabs, followed by search fields for 'All keyword fields' and 'Keyword (All)'. There are icons for a star, a funnel, a search magnifying glass, and a menu. Below the search fields is a table with columns: Title, Assign, I..., V..., Status, Barcode, Last Activ..., R..., and Co... The status bar at the bottom says 'Ready' and has 'OPEN' and 'CANCEL' buttons.

5. Select the relation option. The options depend on the selected search by access point or qualifier.

For example, if **All keyword fields** is selected as the access point, the selections are **Keyword (All)**, **Keyword (Any)**, and **Phrase**. If **Assigned Branch** is selected for an item search, the only option is **Exact**.

6. Enter or select the search term by doing one of the following:
  - If a list is displayed, select the appropriate check boxes. When multiple check boxes are selected, an OR is implied between the selections. In the example below, the search will return items that have a material type of Audio Books (abk) or Audio Ebook (aeb).

- If the search access point does not have an associated list, type the search term. For example, if you search by Author, type the author's name.
7. Select the search button to start the search.

The search results list is displayed.

**Find Tool - Item Record**

## Do a power search

To do a power search:

**Note:**

For details about setting up power searches and a list of search access points, see the Polaris ILS online Help.

1. Open the Find Tool.
2. Select the type of record to find (if it is not already selected).
3. Select **Power Search**.
4. Enter the power search in the search box. For a list of search access points, see the Polaris ILS online Help.
5. Select the search button to start the search or press **Enter/Go**.

The search results are listed.

6. Select a record and select **OPEN**.

## Save a power search

### Note:

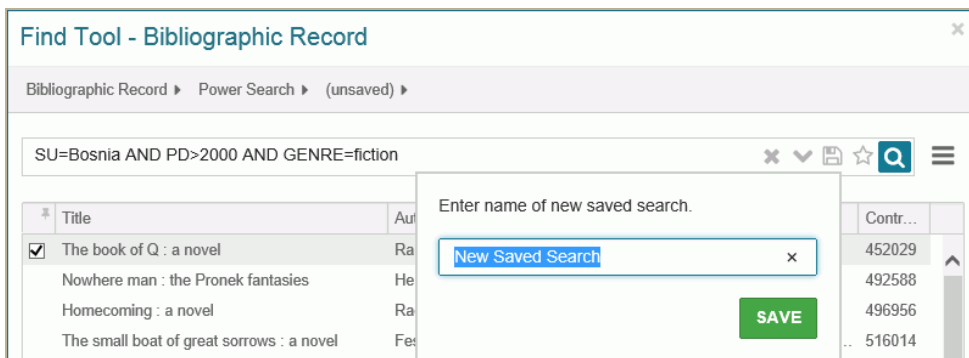

No additional permissions are required to save a power search. Each user sees only their own saved power searches.

To save a power search:

1. Enter the search terms for the power search. See "Do a power search" on page 39.
2. Select the save button.

A dialog box opens where you enter the name of the saved search.

3. Type the name of the saved search, and select **SAVE**.

The power search is saved, and it is available in the drop-down list.

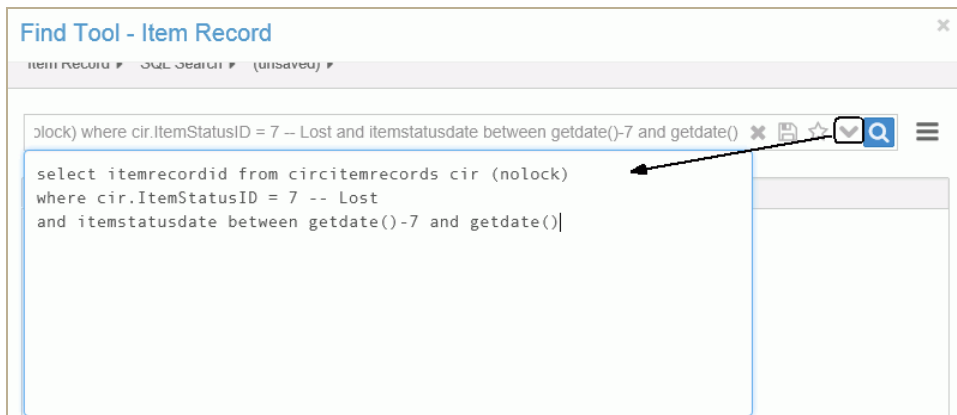

## Set up and save an SQL search

SQL searches saved in Leap are available to authorized users in Leap and in the Polaris ILS.

To set up and save an SQL search:

1. Open the Find Tool.
2. Select the type of record to find (if it is not already selected).
3. Select SQL Search.
4. Enter the search query in the search box.
5. If the query has multiple lines, select the button to expand the box, and type the rest of the query.

**Tip:**

You can save an SQL search as your user default.

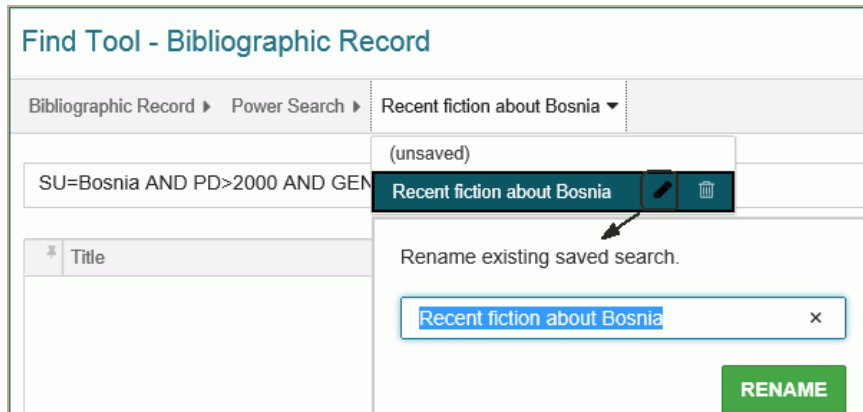

6. If you have the permission to save SQL searches, and you want this search query to be saved, select the **Save** button.

The SQL search is saved and available in the drop-down list.

## Rename a saved search

To rename a saved search:

1. Select the saved search, and select the pencil icon.  
A dialog box opens.
2. Type another name for the saved search in the name box.
3. Select **RENAME**.

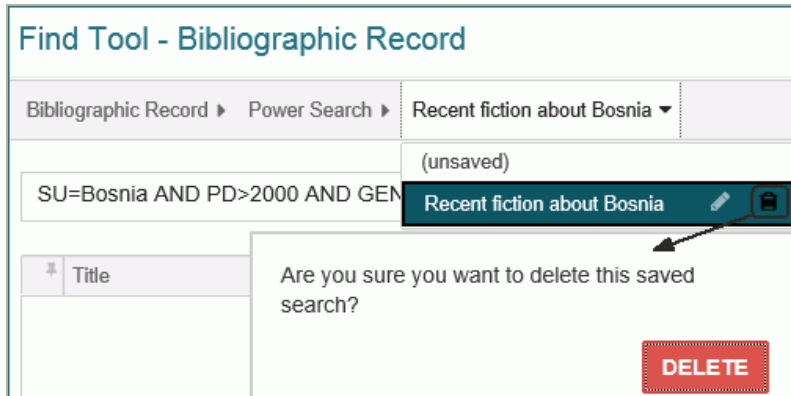

The saved search is listed with the new name.

## Delete a saved search

To delete a saved search:

1. Select the saved search in the list, and select the trashcan icon.  
A message asks if you are sure you want to delete this saved search.
2. Select **DELETE**.

The saved power search is deleted from the list.

## Apply a filter to a Find Tool search

To apply a filter to limit search results:

**Note:**

You can apply filters and save them in your user defaults. See "Save a set of Find Tool search options as your user default" on page 48.

1. Set up the search criteria. See "Do a basic search for a patron, item, or bibliographic record" on page 36.
2. Select the filter icon.

3. Or, select the slide-out button and select **Search Filter**.

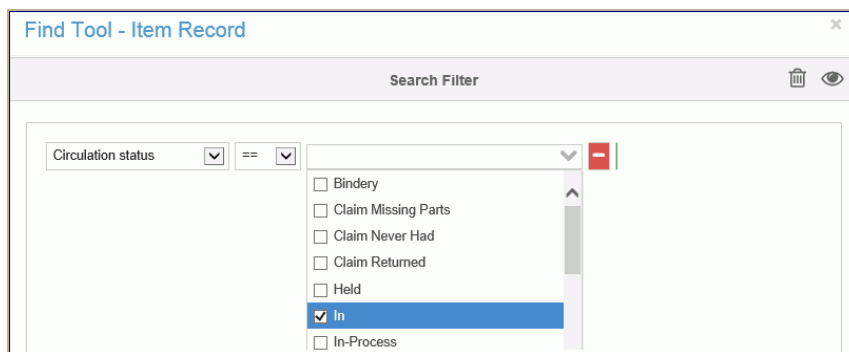

The Filter page opens.

4. Select **ADD CONDITION**.

5. Select the access point.
6. Select the qualifier.

7. Add more conditions, as necessary.
8. Select **APPLY**.

The Search Filter view closes.

9. Select the search button.

The search starts.

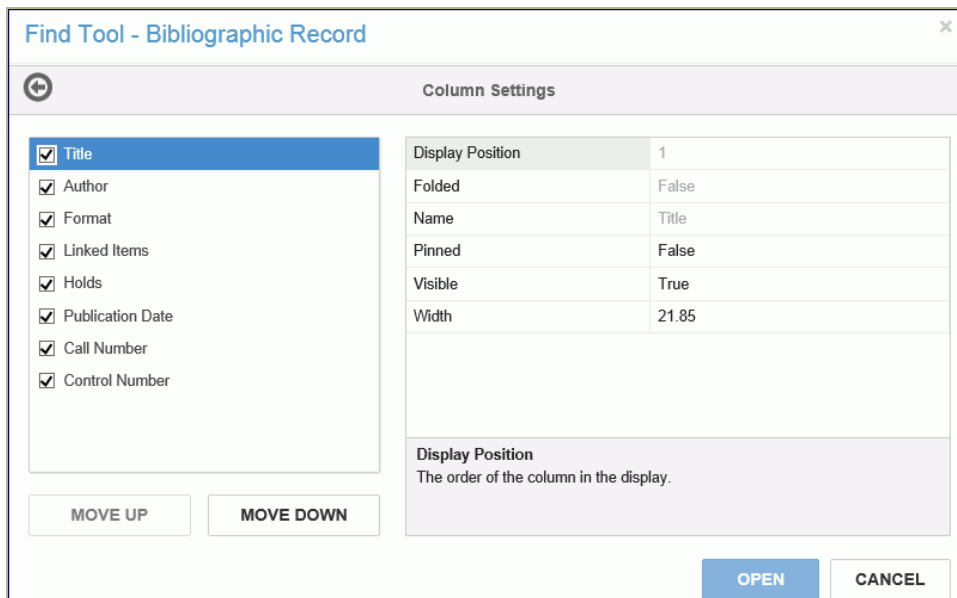

## Specify columns for search results

To specify the columns to display in search results:

1. Open the Find Tool.
2. Go to the options menu.
3. Select **Column Settings**.

4. The Column Settings dialog box opens.

When you select a column heading, you can view the column settings: Display Position, Folded, Name, Pinned, Visible, and Width. Column settings that display in black type can be modified; those that display in gray type cannot be modified.

### Note:

When you select a column setting, the definition is displayed in the shaded box.

The column settings are as follows:

- **Display Position:** The order in which the columns display from left to right, with 1 being the first column on the left. To change the display position, select the MOVE UP

or MOVE DOWN button.

- **Folded:** Indicates whether a column will be “folded” to a secondary line. When set to True, the column is folded; False is not folded.
- **Pinned:** Indicates whether a column will move when scrolling the results list horizontally. When set to True, the column is pinned; False is not pinned.
- **Visible:** Indicates whether a column will be visible. When set to True, the column is visible; False is not visible.
- **Width:** The width of the column in characters. The minimum setting is 2, and the maximum setting is 255.

5. Select the check boxes for the columns to display in the Find Tool search results.
6. Select the **MOVE UP** or **MOVE DOWN** button to change the position of the column from left to right.
7. Select **OPEN** when you have finished defining the columns for search results.

## Save a set of Find Tool search options as your user default

You set up a search and then save the following search criteria as your user default:

- Database (record type) - Patron, Item, or Bibliographic
- Mode - Basic, Power, SQL
- Qualifier - Name, Title, Author etc.
- Columns in search results display
- Order of the columns in search results display.

To save a set of search criteria and search results columns:

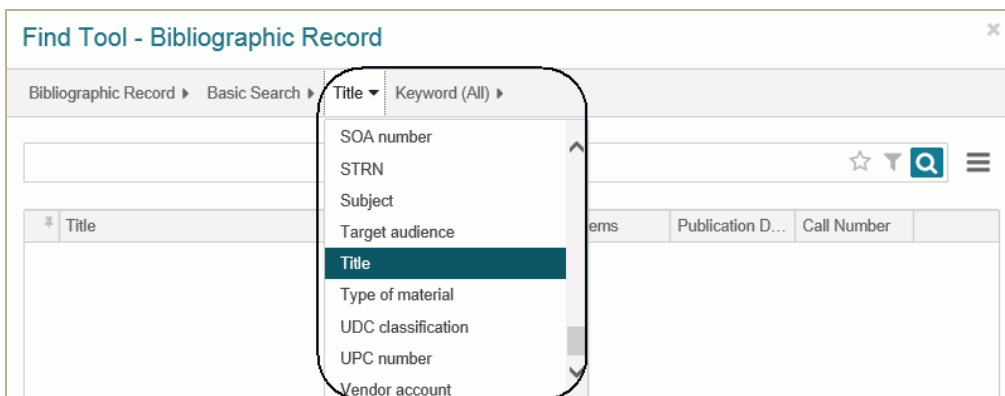

1. Open the Find Tool.
2. Select the record type: **Bibliographic Record**, **Item Record**, **Patron**.

3. Select the search mode: **Basic Search**, **Power Search**, **SQL Search**.

4. Select the search qualifier (access point or search by) option: **Title**, **Author**, **Type of material** etc.

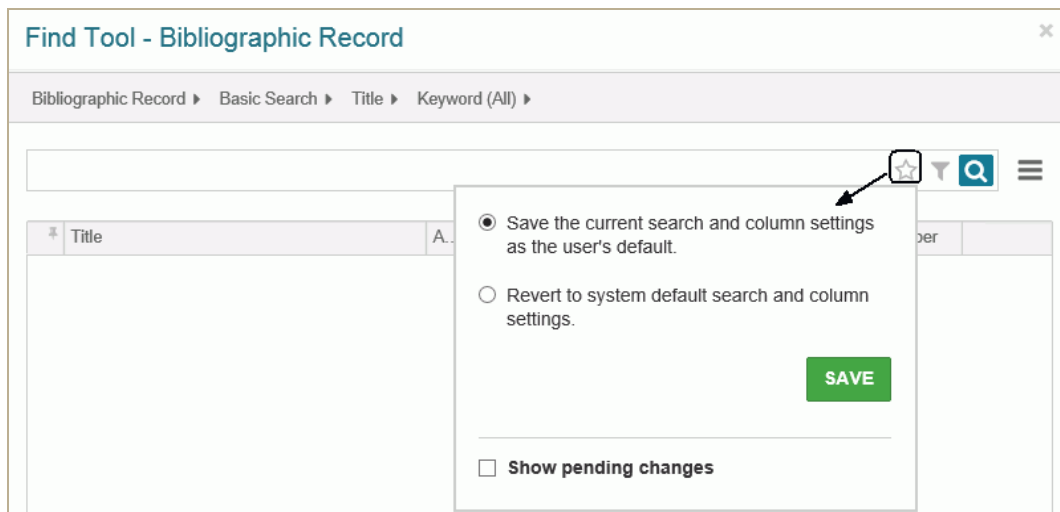

5. Select the search relation - **Exact**, **Keyword (All)**, **Keyword (Any)**, **Phrase** etc.

6. To include specific columns for search results in your user default, set up the columns. See "Specify columns for search results" on page 46.

7. Select the star icon.

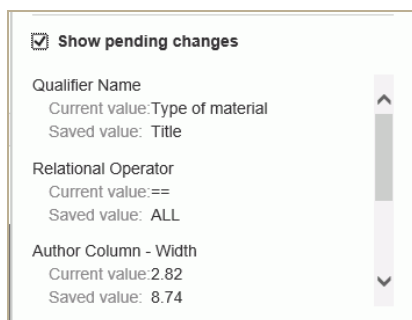

A dialog box opens.

8. Select **Save the current search and column settings as the user's default**.

**Note:**

To see the changes that will be made when you save the current search and column settings, select **Show pending changes**.

9. Select **SAVE**.

The dialog box closes and the star icon is displayed in yellow, indicating your user defaults are saved.

**Note:**

To return to the system defaults, select the star icon again and select **Revert to system default search and column settings**.

## Sort Find Tool search results list

To sort search results in the Leap Find Tool, select a column heading. For example, select the **Status** column heading in item search results to sort the list by the circulation status.

The screenshot shows the 'Find Tool - Item Record' window. The search bar contains 'harry potter'. The results table has columns: Title, Assig..., Coll..., Mat..., Shel..., Call..., Status, Barcode, and Last Activ... The 'Status' column is highlighted with a red box, indicating it is selected for sorting. The table displays several rows of search results for 'Harry Potter Year...' items. The status of all items shown is 'In'. The bottom of the window shows 'Ready' and '2,222 Result(s)'. There are 'OPEN' and 'CANCEL' buttons at the bottom right.

Title	Assig...	Coll...	Mat...	Shel...	Call...	Status	Barcode	Last Activ...

## Open a Patron, Item, or Bibliographic Record in Leap

When you first log into Leap, the cursor is in a search box where you can enter (scan or type) a patron barcode to open a patron record or an item barcode to open an item record. If you enter search terms, the automatic suggestions may include patron and bibliographic records. See "Search for Records in Leap" on page 18.

You can also open the Find Tool and use various options to search for records. See "The Leap Find Tool" on page 34.

When you find the record, select it, and select **OPEN**, the record is displayed. Only patron records can be modified in Leap 1.0; item and bibliographic records are read-only.

You can also view item records by selecting the item in the following lists: checkout, check in, items out, claims, reading history, notices, account and transaction history.

See also:

- "Patron Record " on page 53
- "Item Record" on page 55
- "Bibliographic Record" on page 59

## Patron Record

In Leap, patron information includes data elements from the Patron Registration and the Patron Status workflows in the Polaris ILS. When you search for and select an existing patron, the first view includes a summary of the patron's library account: the number of items out; the account balance; the number of lost and/or claimed items; and notes. The cursor is in the **Check out an item box**, where you can scan an item barcode.

## Item Record

The settings that apply to item records in the staff client (such as the loan period, item home branch, and hold limited to) are also applied to item records displayed in Leap. If a book jacket image is associated with the item record, the image is displayed in the Item view in Leap.

The top part of the page displays the item's header information, and the bottom part of the page changes depending on the selected view: Circulation, Controls, Blocks and Notes, or History.

### Note:

If you use the Find Tool to access a record in Leap, a **RESULTS** button is displayed in the record header. Select **RESULTS** to return to the Find Tool results. This button does not display if you opened the record from a quick search or from a list view.

## Patron Record - Registration

When you first sign in to Leap, the Circulation page opens.

From this page, you can access an existing patron record by scanning the patron's barcode or by searching for the patron. Or, you can register a new patron by selecting **NEW PATRON**.

**Note:**

Leap and the Polaris staff client share the same patron registration settings and required fields as defined in Patron Services Administration parameters and profiles for the patron's registered branch.

See also:

- "Do a quick search for an existing patron" on page 65
- "Use the Find Tool to search for a patron" on page 67
- "View, edit, or renew an existing patron's registration" on page 69
- "Register a new patron" on page 71

## Do a quick search for an existing patron

You can do a quick search by scanning a patron barcode or entering search criteria in the search box. For additional search options, select **Find Tool**. See "Use the Find Tool to search for a patron" on page 67.

To do a quick search for an existing patron's record:

1. Sign in to Polaris Leap.

The Circulation page opens with the cursor in the search box.

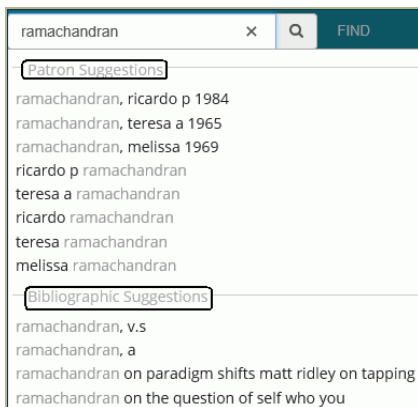

2. Open the patron's record by one of these methods:

- Scan the patron's barcode on the patron's library card.

- Start entering search criteria in the box. As you type, automatic suggestions are displayed that may include both patron and bibliographic records. If only one patron record matches the entry, it opens immediately. You can select a patron from the list of automatic suggestions or press **Enter** or tap **Go**.

- If you press **Enter** or tap **Go**, and the search criteria matches keywords in both patron and bibliographic records, a total count is displayed for each type of record. Select **Patron Keywords** to open the Find Tool. Select a patron in the Find Tool results list.

Please choose one of the following to narrow your search for **"ramachandran"**

Bibliographic Keywords (6)

Patron Keywords (3)

The patron's record opens to the patron's library account view. Select **REGISTRATION** to go to the existing patron's registration view. See "View, edit, or renew an existing patron's registration" on page 69.

**Note:**

If the patron record requires updates, a message appears.

## Use the Find Tool to search for a patron

To search for a patron using the Find Tool:

1. Sign in to Polaris Leap.

The Circulation page opens.

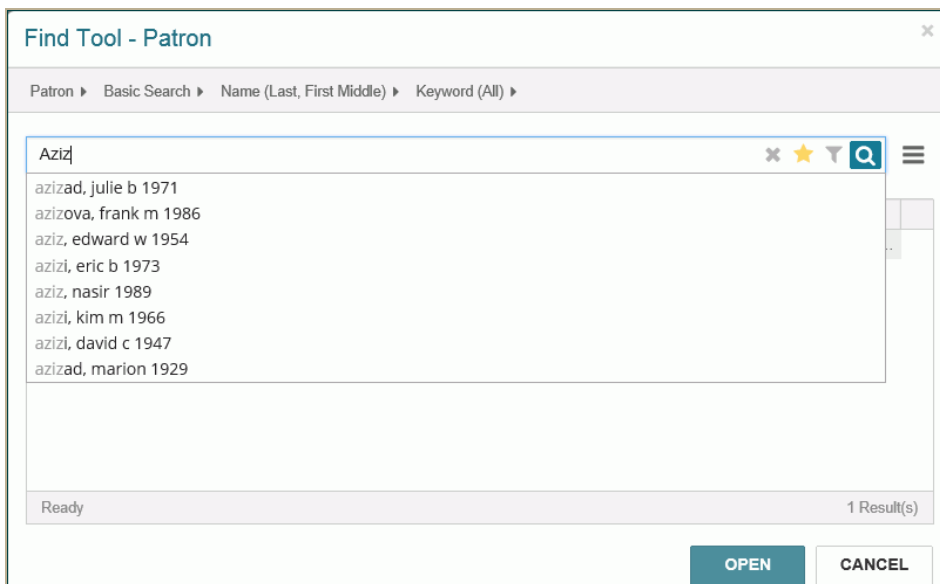

2. Select **FIND**.

The Find Tool opens with Patron selected as the record type.

3. Enter the search criteria.

As you type, automatic suggestions are displayed.

4. Open the patron record:

- If the patron is listed in the automatic suggestions list, select the patron in the list, and select **OPEN**.
- Select the search button to go to the Find Tool search results list, select the patron in the list, and select **OPEN**.

The patron's record opens.

## View, edit, or renew an existing patron's registration

To view or edit an existing patron's registration information or renew the patron's registration:

1. Scan a patron's barcode or search for the patron.

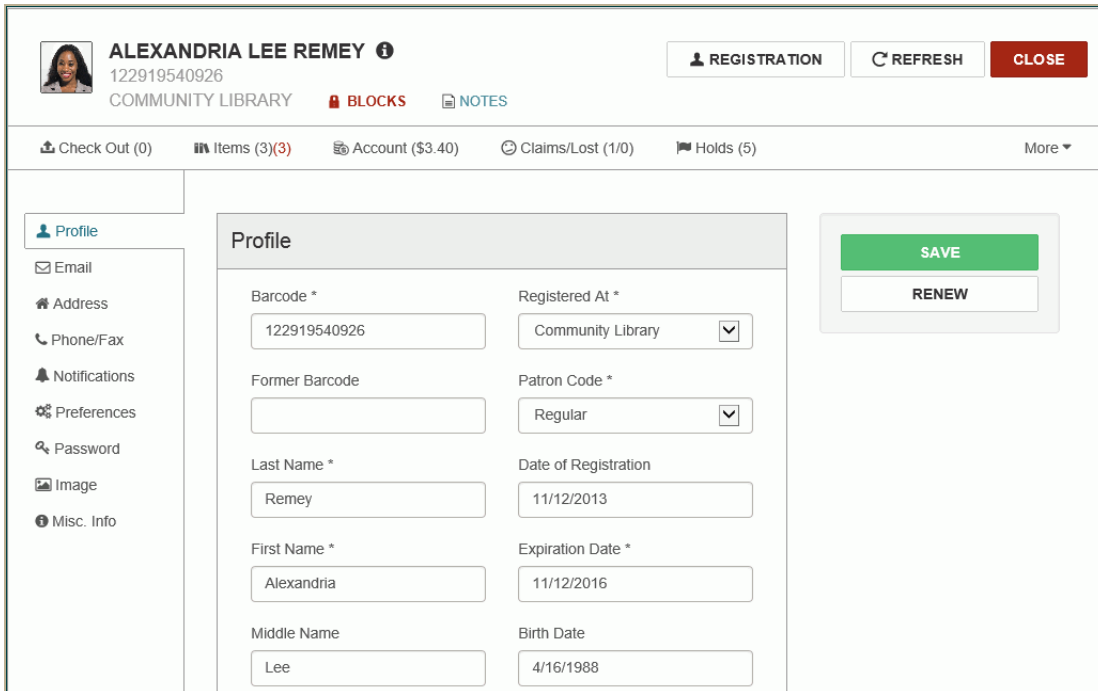

The patron's name, picture (if available), registered branch, and account information are displayed at the top of the page.

The screenshot shows the top section of the patron profile page. At the top left is a small profile picture of a woman. To its right is the name **ALEXANDRIA LEE REMEY** with an information icon. Below the name is the barcode **122919540926** and the text **COMMUNITY LIBRARY**. To the right of the name are three tabs: **REGISTRATION** (selected), **REFRESH**, and **CLOSE**. Below the name and tabs are three links: **BLOCKS** (with a red icon), **NOTES** (with a document icon), and **Check Out (0)**. Below these links are four status indicators: **Items (3)(3)**, **Account (\$3.40)**, **Claims/Lost (1/0)**, and **Holds (5)**. At the bottom of this section is a search bar with a magnifying glass icon, a **FIND TOOL** button, a **RESET** button, and a **SPECIAL...** button. Below the search bar is a table with the following headers: **BARCODE**, **CALL NUMBER**, **TITLE**, **DUE DATE**, **ACTION**, **SHELF LOCATION**, **ASSIGNED BRANCH**, and **MATERIAL TYPE**.

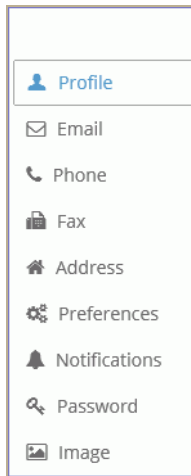

2. Select **REGISTRATION**.

The page displays the patron's registration information.

The screenshot shows the registration information section of the patron profile page. The top section is the same as the previous screenshot. Below the status indicators is a **Profile** section. On the left side of the **Profile** section is a navigation menu with the following items: **Profile** (selected), **Email**, **Address**, **Phone/Fax**, **Notifications**, **Preferences**, **Password**, **Image**, and **Misc. Info**. The main content area of the **Profile** section contains the following fields: **Barcode \*** (122919540926), **Registered At \*** (Community Library), **Former Barcode** (empty), **Patron Code \*** (Regular), **Last Name \*** (Remey), **Date of Registration** (11/12/2013), **First Name \*** (Alexandria), **Expiration Date \*** (11/12/2016), **Middle Name** (Lee), and **Birth Date** (4/16/1988). To the right of the registration information is a **SAVE** button and a **RENEW** button.

3. To go to different sections of the patron record, select an item from the left navigation menu.

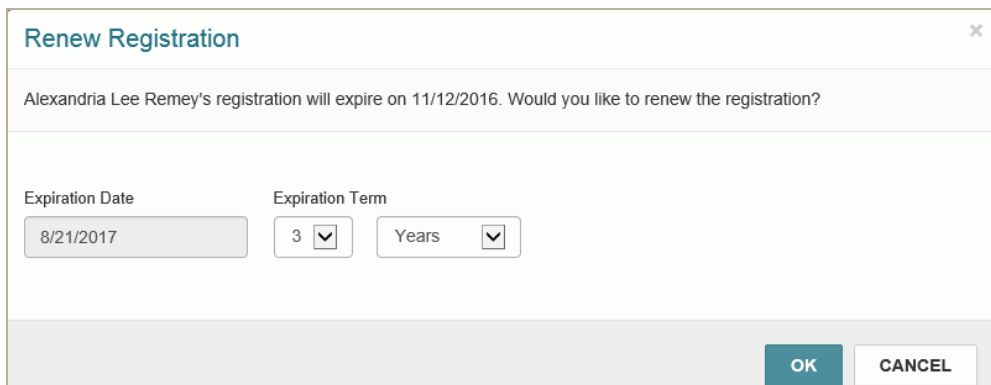

- Profile
- Email
- Phone
- Fax
- Address
- Preferences
- Notifications
- Password
- Image

4. To edit the patron's registration information, type the text or select options, and select **SAVE**.

SAVE

See "Register a new patron" on page 71 for information on the registration fields.

5. To renew the patron's registration, select **RENEW** to open the Renew Registration box, and type the date in the **Expiration Date** box, or select a number and select **Months** or **Years** from the drop-down list, and select **OK**.

**Renew Registration**

Alexandria Lee Remey's registration will expire on 11/12/2016. Would you like to renew the registration?

Expiration Date: 8/21/2017

Expiration Term: 3 [dropdown] Years [dropdown]

OK CANCEL

**Note:**

When you have a patron record open, you can continue to open other patron, item, or bibliographic records. You can select the record to view from the Workforms menu.

## Register a new patron

To register a new patron:

1. Select **NEW PATRON**.

The Patron Registration page opens to the Profile section of the record.

**Note:**

Required fields are marked with an asterisk.

A screenshot of the "Patron Registration" web form. The form has a title bar "Patron Registration" and a left-hand navigation menu with links: Profile (selected), Email, Address, Phone/Fax, Notifications, Preferences, Password, and Image. The main content area is titled "Profile" and contains several input fields: "Barcode \*" (text box), "Former Barcode" (text box), "Last Name \*" (text box), "First Name \*" (text box), "Middle Name" (text box), "Title" (dropdown menu with "(None)" selected), "Suffix" (text box), "Registered At \*" (dropdown menu with "Community Library" selected), "Patron Code \*" (dropdown menu with "Regular" selected), "Date of Registration" (text box with "8/21/2014"), "Expiration Date \*" (text box with "8/21/2017"), "Birth Date" (text box), and "Gender \*" (radio buttons for "Male", "Female", and "N/A", with "N/A" selected). On the right side of the form are two buttons: a green "SAVE" button and a white "CANCEL" button.

2. Scan the patron's barcode from the new library card in the **Barcode** box, or type the barcode.

**Note:**

If the patron was registered previously and had a library card with a barcode, enter the old barcode number in the **Former barcode** box.

3. Enter the patron's name as follows:

- Type the patron's last name (at least one character) in the **Last name** box.

**Tip:**

Do not use spaces when typing compound last names. For example, type MacDonald (instead of Mac Donald).

- Type the first name in the **First Name** box.

4. To enter optional name information, follow these steps:

- Type the middle name in the Middle Name box.
- Select the patron's title in the Title box.
- Type the patron's suffix (such as Sr., Jr., II, or Ph.D.) in the Suffix box.

5. Select the patron's registration location in the Registered At box.
6. Select the patron's code in the Patron Code box.

**Tip:**

You can also type dates (mm/dd/yyyy) in date boxes.

7. Click/tap in the **Expiration Date** box to open a calendar, and select the date that the patron's registration will expire.

Expiration Date\*

9/13/2016

4 Sep 2016 1

Su	Mo	Tu	We	Th	Fr	Sa
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	

8. Click/tap in the Birth Date box to open a calendar, and select the patron's birth date.

4 Sep 1961 1

Su	Mo	Tu	We	Th	Fr	Sa
					1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30

09/01/1961 X

9. Select **Male**, **Female**, or **N/A** under Gender.
10. Select a statistical class for the patron
11. If applicable, enter additional information in the user-defined fields that your library has set up.
12. In the Email section, type the patron's email address and the alternate email address (if applicable).
13. In the Addresses section, select the ADDRESS button to add a patron's address.

The Address section expands.

**Addresses**

Address Type: Home ☒ City: COBLESKILL

Postal Code: 12043 State: NY

Street Address: County: SCHOHARIE

Street Address Line 2: Country: USA ☒

Address Check Date: 8/22/2015 Term: 1

14. Enter the following information in the expanded Address section:

- Select an address type in the **Address Type** box.
- Enter the postal code in the **Postal Code** box.
- The **City**, **State**, and **County** boxes are filled in based on the postal code you entered. If these boxes are not automatically filled, you can type the city, state, and county.
- Type the patron's street address in the **Street Address** and, if necessary, the **Street Address Line 2** boxes.
- Click/tap in the **Address Check Date** box, and select a date when the patron's address should be checked. Or, under **Term** select a number and select **Years** or **Months**. The address check date changes when you select a term.

Address Check Date:

09/08/2016

Sep 2016

Su	Mo	Tu	We	Th	Fr	Sa
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	20	21	22	23	24
25	26	27	28	29	30	

15. In the **Phone/Fax** section, enter at least one and up to three phone numbers, and a fax number (if applicable).

16. In the **Notification Settings** section, select the following options for notices:
  - Select the address type to which notices will be sent. The addresses must be entered in the Addresses section to appear in this list. For example, if you specified a home address, it is listed as **Home**.
  - Select the electronic receipt option in the **eReceipt Option** box.
  - Select the notification option to use in the **Notification Option** box.
  - If an additional text notice will be sent to the patron's cell phone, select the following options:
    - Select the **Additional TXT Notice** box
    - Select the phone (1, 2, or 3) to which text messages will be sent in the **Text Messaging Phone** box.
    - Select the wireless carrier in the **Wireless Carrier** box.
17. In the Preferences section, select the check box next to the applicable options:
  - **Exclude from Collection Agency**
  - **Exclude from Overdue Notice**
  - **Exclude from Hold Notice**
  - **Exclude from Billing**
  - **E-mail notices in plain text**
  - If the patron's primary language is other than English, select it in the **Language** box.
  - **Maintain Reading List**
  - **Do Not Delete Record**
18. In the **Password** section, enter the patron's password and re-enter it to confirm it in the **Password (Confirm)** box.

If the passwords do not match, the Password (Confirm) box has a red border.

19. To save a patron's picture in the record, go to the Patron Image section, and do the following steps:

**Note:**

To take a new patron photograph from a workstation, a webcam must be installed. If you are running Leap on an iPad, you can use the iPad camera.

- a. Select **UPDATE IMAGE**.
- b. Click/tap **SELECT IMAGE** and select one of the following options:
  - **TAKE PHOTO** - The camera opens. Take the patron's photo and select Use Photo to use the image as it was captured. You can select Retake to take a new photograph.
  - **CHOOSE EXISTING** - Browse and select the existing patron photo. On an iPad, you can select the picture from the Camera Roll.

The picture is displayed in the Update Image view.

- c. Select **SAVE** to save the patron's picture.
  - d. Select **CLOSE** to close the Update Image box and return to the patron's record.
20. Select **SAVE** to save the new patron record.

If no similar patron records are found, the new patron record is saved.

If potential duplicate patron records are found in the database, a Record Not Saved dialog box opens listing the potential duplicates.

**Note:**

You can update the photo by replacing it, or if you want to delete the photo, select it and select **DELETE**.

## Patron Record - Library Account

When you access an existing patron's record in Leap, **Check Out** is selected and the cursor is in the barcode box. To check out an item to the patron, scan the barcode. You can also search for an item and check it out. See "Check Out/Renew Items" on page 153.

In addition to the **Check Out** option, the summary bar displays the number of items out and overdue; the account balance; the number of claimed and lost items; and the number of holds. To view details, or to enter or modify data, select the appropriate option in the summary bar.

From the **More** menu, you can access the patron's notes, reading history, associations, notices, interlibrary loans (ILLs), and messages.

If the item is overdue, the Overdue Fine dialog box opens.

From this dialog box, you can pay, waive, charge account, or cancel. See "Patron's Financial Account " on page 86.

If your library prints receipts for renewals, the print dialog box opens. See "Receipt Printing from Leap" on page 19.

When the items are renewed successfully, the new due date is displayed in the **DUE ON** column.

## Reset the due date from the items out list

To set a different due date from the items out list:

1. Open the patron's record and go to the items view.
2. Select an item or items in the list of items out, and select the **Reset Due Date** button.

Loan period:

☐ Apply to next item only  
☐ Apply to all items for this patron

SPECIAL RENEW CANCEL

4. Do one of these steps to set the special renewal:
  - Select a specific due date from the calendar.
  - Specify the duration of the loan in the **Loan period** boxes by typing a number and selecting **Days**, **Hours**, or **Minutes** from the drop-down list box.
5. (Optional) If you want the loan period to apply to other items for this patron, select **Apply to next item only** or **Apply to all items for this patron**.

## Estimate fines from the items out list

To estimate fines for items in the items out view:

1. Open the patron's record.
2. Select **Items** to go to the items out view.
3. Select the item or items in the items out list, and select the estimate fines button.

The estimated fines are displayed.

Estimated Fines				
Estimated Fines of \$0.70 based on return date of 8/27/2014 <span>SELECT DATE</span>				
TITLE	AUTHOR	ITEM STATUS	DUE DATE	FINE
The Australian outback	Moffitt, Ian	Out	8/26/2014	\$0.10
The theatre of Tennessee Williams	Williams, Tennessee, 1911-1983.	Out	8/26/2014	\$0.10
Zen art for meditation	Holmes, Stewart Walker.	Out	8/26/2014	\$0.10

<span>CLOSE</span>				

4. To change the due date, click/tap **SELECT DATE**, and select a different date from the calendar.
5. Select **CLOSE** to close the dialog box and return to the items out list.

### Note:

If your library has opted to include lost/and or claimed items in the estimated fines calculation, you can also estimate fines from the **Claims/Lost** view.

## Claim an item from the items out list

When an item is listed as checked out to the patron, but the patron claims she never checked out the item or has already returned it, you can assign a claim status to the item.

To assign a claimed status to an item in the patron's item list:

1. Open the patron's record and select Items.

The patron's items out list view opens.

2. Select the check box in the column to the left of the item that you want to claim, and select the **Make a Claim** button.

	TYPE	DUE ON ▼	BARCODE	TITLE	AUTHOR	RENEWALS LEFT	CALL NO.	BRANCH

The area below the button expands.

Choose a claim status: Claim Returned ▼

**CLAIM** **CANCEL**

3. Select the claim status, and select **CLAIM**.

The item is claimed.

## Declare an item lost from the items out view

To select an item from the list of items out and declare the item lost:

1. Access the patron's items out list. See "Items Out List" on page 77
2. Select the check box in the column to the left of the item that you want to declare lost, and select the declare lost button.

The Declare Lost dialog box opens.

Declare lost item

- "Add a credit to a patron's account" on page 92

## Pay patron charges

To select charges and pay them:

1. Open the patron's record.
2. Select **Account** in the summary toolbar.
3. Select the check box next to the charge or charges you want to pay.
4. Select **PAY**.

The area below the button expands.

The screenshot shows a 'PAY' modal window. At the top, there is a toolbar with icons for 'PAY', a heart, a wallet, a shopping cart, an envelope, a refresh, and an information icon. A 'Filter Charges' button is located on the right. The main form area contains the following fields:

- Balance:** \$10.00
- Amount:** A text input field containing '\$10.00'.
- Method:** A dropdown menu with 'Cash' selected.
- Note:** A large text input field.

At the bottom right of the form, there are two buttons: a green 'PAY' button and a white 'CANCEL' button.

5. If the amount paid is different from that displayed in the **Amount** box, type the amount.
6. (Optional) Type a note in the **Note** box.
7. Select **PAY**.

The charges are paid, and the patron's account is updated.

## Waive charges

To waive a charge or charges, and distribute waived amounts:

1. Open the patron's record and select **Account** to go to the account view.

The Account view displays the account summary at the top of the list with totals for Charges, Deposits, Credits, and the total balance on the account.

2. Select the check box next to the charge (or charges) you want to waive.
3. Select the **Waive Charge** button.

PAY Waive Charge Waive Charge Waive Charge Waive Charge Waive Charge Waive Charge ⓘ

Waive Charge

The area below the toolbar buttons expands.

Balance: \$0.10

Amount to waive: \$0.10 x

Note:

WAIVE CANCEL

4. To enter an amount less than the total amount of the charge, enter it in the Amount to waive box.

**Note:**

The ability to distribute waived amounts among several selected charges is available only if your library has enabled distributed waivers in Polaris Administration. For more information, see Polaris online Help.

5. To distribute a waived amount among the selected charges, select **Distributed waive**, and enter an amount in the Amount to waive box.

The screenshot shows a web interface for managing charges. At the top, there is a navigation bar with icons for 'PAY', a shield, a heart, a credit card, a shopping cart, an envelope, a refresh, and an information icon. A 'Filter Charges' button is on the right. Below this is a main content area with a light gray background. It displays 'Balance: \$10.00' and 'Amount to waive: \$10.00'. To the right of the 'Amount to waive' field is a checkbox labeled 'Distributed waive' which is checked. Below the 'Amount to waive' field is a text box for a 'Note:'. At the bottom right of the main content area are two buttons: 'WAIVE' (green) and 'CANCEL' (white with a gray border).

6. To enter an optional note, type it in the **Note** box.
7. Select **WAIVE** at the bottom of the dialog box to waive the charge or charges, or select **CANCEL** if you choose not to waive the charge.

A message indicates the charge was waived successfully.

## Add a charge to a patron's account

To add a charge to a patron's account:

1. Open the patron's record and select **Account** to go to the account view.

- "Reset the claim count" on page 100

## View estimated fines for claimed and lost items

To view the items that were claimed or declared lost for a patron:

1. Open the patron's record.
2. Select **Claims/Lost** in the patron record's summary bar.

The items that were claimed or declared lost for the patron are listed.

Filter Claims

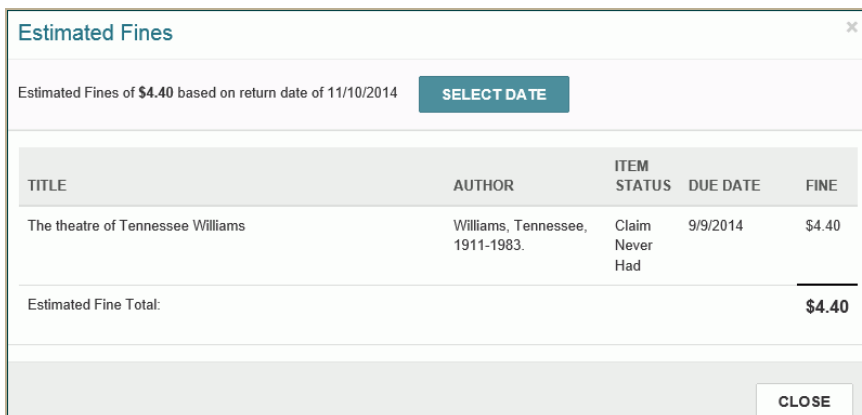

Total Claims: 1 Current Claims: 1 Lost: 0

BARCODE	TITLE	CLAIM DATE	DESCRIPTION	DUE DATE
<input type="checkbox"/> 0000400560710	The theatre of Tennessee Williams	9/17/2014	Claim Never Had/Accruing	8/26/2014

3. Select the item or items for which you want to estimate fines.
4. Select the estimate fines button.

The Estimate Fines dialog box opens.

**Estimated Fines** ✕

Estimated Fines of **\$4.40** based on return date of 11/10/2014 **SELECT DATE**

TITLE	AUTHOR	ITEM STATUS	DUE DATE	FINE
The theatre of Tennessee Williams	Williams, Tennessee, 1911-1983.	Claim Never Had	9/9/2014	\$4.40
Estimated Fine Total:				<b>\$4.40</b>

**CLOSE**

5. To see fines based on a different return date click/tap the **SELECT DATE** button and select another date. The estimated fine amount changes.

## View notices for claimed or lost items

To view the notification history for a claimed or lost item:

1. Open the patron's record.
2. Select **Claims/Lost** to open the list of claimed or lost items.
3. Select the check box next to the item, and select the notification history button.

The notification history for the claimed or lost item is displayed.

Notification History					
Title: The theatre of Tennessee Williams Material Type: Book					
NOTICE	METHOD	DATE	FROM	AMOUNT	STATUS
1st Overdue	Email	8/29/2014	COB		Email Completed
				ITEM RECORD	CLOSE

4. To see the claimed or lost item record, select **ITEM RECORD**.

The item record is displayed.

## Reset the claim count

Resetting a patron's claim count to zero prevents the patron from being blocked for exceeding the total claim limit when claims have actually been resolved.

To reset the count of claimed items for a patron:

1. Open the patron's record.
2. Go to the **Claims/Lost** view. See "Claimed and Lost Items" on page 97.
3. Select **RESET CLAIM COUNT**.

The patron's total claim count is reset to zero.

## Hold Requests

You start from the patron record and place holds by finding the title. Or, you can start from an item or bibliographic record, and place holds by finding the patron.

When you open a patron record in Leap, you can click on the Holds button to see a list of the patron's current holds. From the list view, you can select a single hold to open it in another view where you can edit it, view the hold history, cancel the hold, delete the hold, or deny the hold request.

## Messages or blocks when placing holds

As you create holds in Leap, messages and blocks may appear due to the status of the item or the patron. For example, there may be a library-assigned block on the patron's account. If a message or block appears in Leap, you can select **CONTINUE** or **CANCEL**.

The screenshot shows a modal dialog box with a light green header bar containing the text "Patron is blocked" in blue. Below the header is a light purple bar with the question "Do you want to continue with this operation?". Underneath is a white box containing the text "Library Assigned Block 1". At the bottom right of the dialog are two buttons: a solid blue button labeled "CONTINUE" and a dashed border button labeled "CANCEL".

These messages and blocks appear in Leap according to the same criteria as they appear in the Polaris staff client. For more information on the types of messages and blocks that may appear when creating hold requests in Leap, see the topic *Hold Request Messages and Blocks* in the Polaris ILS online Help.

## Place a single hold request for a patron

When you search for a title to place a hold for a patron, the Find Tool opens with Bibliographic record selected. If your library allows item-specific holds, you can also place holds on specific items.

To place a hold from a patron record:

1. Open the patron's record.
2. Select **Holds**.

The patron's holds are displayed.

3. Select **NEW HOLD**.

The area below the button expands.

**NEW HOLD**

Activation: 10/28/2014    Expiration: 11/7/2014    Pickup: Community Library

**PLACE HOLD**    **CANCEL**

	When we were very young	Milne, A. A. (Al...	Book	14	0	1924	J 821 Mil	13400

### Note:

When you search for a title, the Find Tool opens with **Bibliographic Record** selected. If the

patron wants a hold placed on a specific item, and your library allows item-specific holds, you can select **Item Record** in the Find Tool and select an item record on which to place the hold.

5. Select the title to place a hold.
6. To change the duration of the hold request, select the **Activation** and **Expiration** boxes to open the calendar control and select new dates. Select **PLACE HOLD**.

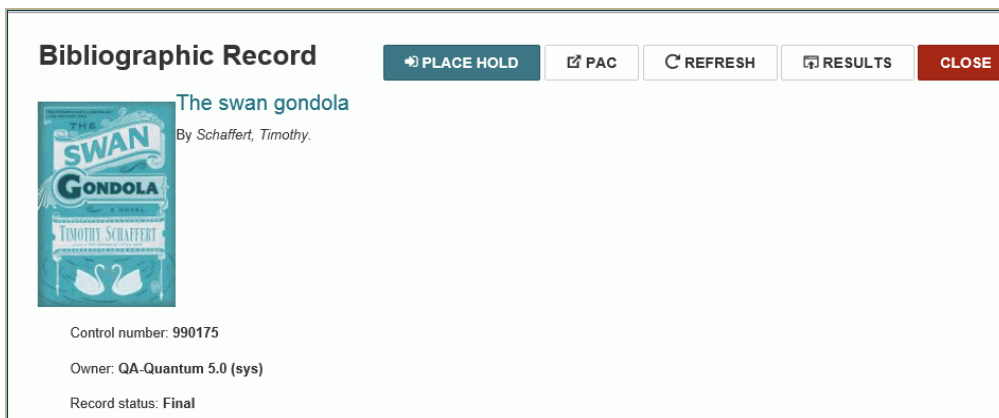

If there are no blocking conditions, a message indicates the hold request was created, and the pending hold request appears at the top of the patron's holds list.

## Place a hold request from the bibliographic record

To place a hold request on a single title from the bibliographic record:

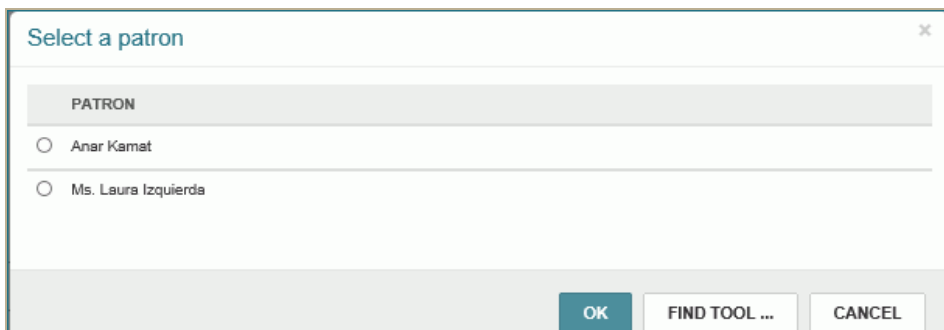

1. Open the bibliographic record.

The screenshot shows a web interface for a bibliographic record. At the top, the title "Bibliographic Record" is displayed. Below it, the book cover for "The swan gondola" by Timothy Schaffert is shown. To the right of the cover, the title "The swan gondola" and author "By Schaffert, Timothy." are listed. Below the cover, the control number "990175", owner "QA-Quantum 5.0 (sys)", and record status "Final" are displayed. At the top right, there are five buttons: "PLACE HOLD" (with a plus icon), "PAC" (with a magnifying glass icon), "REFRESH" (with a circular arrow icon), "RESULTS" (with a list icon), and "CLOSE" (in a red box).

2. Select **PLACE HOLD**.

If patron records are open, the **Select a patron** box opens, and you can select the patron.

The screenshot shows a "Select a patron" dialog box. It has a title bar with a close button (X). Below the title bar, there is a section labeled "PATRON" with a light gray background. Under this section, there are two radio button options: "Anar Kamat" and "Ms. Laura Izquierda". At the bottom right of the dialog box, there are three buttons: "OK", "FIND TOOL ...", and "CANCEL".

If no patron record is open, select **FIND TOOL...** and search for the patron.

The patron's record opens to the Holds view with the title selected.

Scan/enter item barcode to fill now:

OK CANCEL

4. Scan the item barcode, and select **OK**.

The hold request is filled, and the pending hold request is updated to Held in the patron's holds list.

## Modify a hold

To modify a patron's hold request:

1. Open the patron's record.
2. Select **Holds**.

The patron's holds list is displayed.

3. Select a hold in the list to open it.

The hold details are displayed.

The screenshot displays the 'Modify a hold' form in the Polaris Leap 1.0 interface. At the top, there is a toolbar with icons for various actions and a 'Filter Holds' button. The form itself is organized into several sections:

- Request ID:** 839073
- Activation:** 10/29/2014
- Expiration:** 11/8/2014
- Pickup:** Community Library (dropdown menu)
- Status:** Pending 10/29/2014
- Request Date:** 9/2/2014
- Origin:** Library
- Tracking Number:** (empty field)
- Title:** By night in Chile
- Barcode:** (empty field)
- Format:** Book
- Author:** Bolano, Robert.
- ISBN/ISSN:** 0811215474 (pbk.)
- Pages:** (empty field)
- Series:** NDPaperbook ; 975
- Edition:** (empty field)
- Issue:** (empty field)
- Publisher:** New Directions,
- Call NO:** (empty field)
- Serial Copy:** (empty field)
- Date:** 2003
- LCCN:** 2003013223
- Volume:** (empty field)
- Constituent Title/Author:** (empty field)

There are also checkboxes for 'This item only' and 'Borrow By Mail'. At the top right of the form, there are 'SAVE' and 'CLOSE' buttons.

4. Modify the hold as follows:

- To change the date range for which the hold is active, click/tap inside the **Activation** box and select the beginning date from the calendar. Then click/tap inside the **Expiration** box and select the ending date from the calendar.
- To change the branch where the patron will pick up the item, select a branch in the **Pickup** drop-down list box.
- To change the notes that display with the hold request, select the arrow next to **Notes** to expand the Notes area, and enter or edit the notes.

- To change the date range for which the hold is active, click/tap inside the **Activation** box and select the beginning date from the calendar. Then click/tap inside the **Expiration** box and select the ending date from the calendar.
  - To change the branch where the patron will pick up the item, select a branch in the **Pickup** drop-down list box.
  - To change the notes that display with the hold request, select the arrow next to **Notes** to expand the Notes area, and enter or edit the notes.
5. When you are finished editing the hold request, select **SAVE**.

The hold request is modified.

## Reactivate a hold

You can reactivate Canceled, Expired, and Not-supplied hold requests to permit items to fill them. When you reactivate a hold request, the request becomes active with a new expiration date.

To reactivate a hold:

1. Open the patron's record.
2. Select **Holds**.

The patron's holds list is displayed.

3. Select the check box next to the canceled, expired, or not-supplied hold request to be reactivated.
4. Select the reactivate button to reactivate the hold.

The hold request is reactivated.

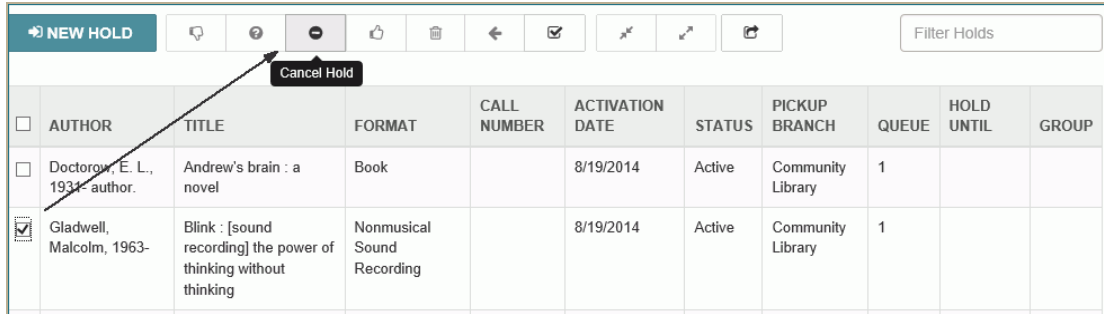

## Cancel a hold

To cancel a hold:

1. Open the patron's record.
2. Select **Holds**.

The patron's hold list is displayed.

3. Select the check box next to the hold you want to cancel, and select the cancel hold button.

The screenshot shows the Polaris Leap interface. At the top, there is a toolbar with a 'NEW HOLD' button and several icons. A tooltip labeled 'Cancel Hold' points to a minus sign icon in the toolbar. Below the toolbar is a table with columns: AUTHOR, TITLE, FORMAT, CALL NUMBER, ACTIVATION DATE, STATUS, PICKUP BRANCH, QUEUE, HOLD UNTIL, and GROUP. The table contains two rows of holds. The first row is for 'Doctorow, E. L., 1931- author.' with the title 'Andrew's brain : a novel'. The second row is for 'Gladwell, Malcolm, 1963-' with the title 'Blink : [sound recording] the power of thinking without thinking'. The second row has a checkmark in the first column, indicating it is selected.

<input type="checkbox"/>	AUTHOR	TITLE	FORMAT	CALL NUMBER	ACTIVATION DATE	STATUS	PICKUP BRANCH	QUEUE	HOLD UNTIL	GROUP

NEW HOLD

Deny Hold

Denying an item for a hold request will prevent the pending item from ever satisfying the hold request. Do you want to continue?

Deny reason: Not available ▼

☐ Deny all available items at this branch

DENY HOLD CANCEL

Select the reason for denying the hold in the **Deny reason** box.

(Optional) If you want to deny holds for all items at this branch, select **Deny all available items at this branch**.

Select **DENY HOLD**.

## Group multiple holds

You can group several titles if any one of the titles will satisfy a hold request. When one of grouped requests is filled, the other requests in the group are deleted. The group is counted as a single request against the patron's total request limit.

To group multiple holds:

1. Open the patron's record.
2. Select **Holds**.

The patron's hold list is displayed.

3. Select multiple holds in the list, and select the arrow button.

The holds are grouped, and the letter **A** displays in the Group column.

### Note:

To remove titles from the grouped holds, select the check box next to the title and select arrow button.

## Set a hold request to *Ask me later*

From a patron's hold requests list, you can set a hold request to "Ask me later" if you cannot locate the item immediately. When this option is selected, the item moves to the next step in Request to Fill (RTF) processing, but it remains eligible to fill the request.

To set a hold request to *Ask me later*:

1. Open the patron's record.
2. Select **HOLDS**.

The patron's holds list is displayed.

3. Select the check box next to the hold request, and select the ask me later button.

If the hold request cannot be set to *Ask me later*, a message box appears.

If the hold request can be set to *Ask me later*, it moves to the next step in the RTF process, but remains eligible to fill the hold request so that your branch has another chance to fill the hold request.

## Delete a hold

To delete a hold:

1. Open the patron's record.
2. Select **Holds**.

The patron's hold list is displayed.

3. Select the check box next to the hold you want to delete, and select the **Delete** button.

The selected patron blocks are deleted.

## Patron Notes

The patron Notes view displays existing non blocking notes and blocking notes. You can add notes, edit existing notes, and delete notes from this view. To see patron notes, select **Notes**.

The screenshot shows the Patron Notes interface for a user named ALEXANDRIA LEE REMEY. The header includes the user's name, ID (122919540926), and the library name (COMMUNITY LIBRARY). There are buttons for REGISTRATION, REFRESH, and CLOSE. Below the header, a navigation bar shows various library metrics: Check Out (0), Out (2) / Overdue (0), Account (\$0.00), Claims (1) / Lost (0), and Holds (10). A dropdown menu for Notes is visible. The main content area is divided into two columns: NON BLOCKING NOTES and BLOCKING NOTES. Each column contains a text input field with placeholder text: "This is a non-blocking note." and "This is a blocking note." respectively. An UPDATE NOTES button is located at the bottom right of the main content area.

NON BLOCKING NOTES	BLOCKING NOTES

- "Delete a patron note" on page 128

## Add a patron note

To add a patron note:

1. Open the patron's record.
2. Select **NOTES**.

The Notes view opens.

The screenshot shows the 'Notes' view for a patron record. At the top, the patron's name 'ALEXANDRIA LEE REMEY' is displayed with a profile picture and ID '122919540926'. Below the name, it says 'COMMUNITY LIBRARY'. To the right of the name are buttons for 'REGISTRATION', 'REFRESH', and 'CLOSE'. Below the name, there are links for 'BLOCKS' and 'NOTES'. A navigation bar below the name shows various statistics: 'Check Out (0)', 'Out (2) / Overdue (0)', 'Account (\$0.00)', 'Claims (1) / Lost (0)', and 'Holds (10)'. On the right side of the navigation bar is a 'Notes' dropdown menu. The main content area is divided into two columns: 'NON BLOCKING NOTES' and 'BLOCKING NOTES'. Each column has a text box for adding notes. The 'NON BLOCKING NOTES' box contains the text 'This is a non-blocking note.' and the 'BLOCKING NOTES' box contains the text 'This is a blocking note.' At the bottom right of the main content area is a green button labeled 'UPDATE NOTES'.

3. Type notes in the **NON BLOCKING NOTES** or **BLOCKING NOTES** box.
4. Select **UPDATE NOTES**.

The notes are updated.

## Delete a patron note

To delete a patron note:

1. Open the patron's record.
2. Select **More | Notes**.

The Notes view opens.

3. Select the note you want to delete, and select the delete (trashcan) button above the note.

The note is deleted.

## Reading History

You can view a patron's reading history if the library maintains reading histories for its patrons and the Maintain Reading List option is selected in the patron's registration preferences.

To view a patron's reading history, open the patron's record and select **More | Reading History**.

## Patron Messages

If you have the required permissions set up in Polaris Administration, you can view, post, modify, and delete patron messages in Leap. Patrons can read their messages from the PAC patron account. An alert appears during check-out if a patron has unread messages, but unread messages do not block the patron from checking out items.

To see a patron's messages, select **More | Messages**.

MESSAGES	PATRON HAS READ
<input type="checkbox"/> Renew your items online at <a href="http://qa-orion/polaris">http://qa-orion/polaris</a>	No

To see the message properties, select the message in the list, and select the information button.

See also:

- "Add a patron message " on page 138

## Add a patron message

To add a patron message:

1. Open the patron's record.
2. Select **More** to open the menu.
3. Select **Messages** to open the message list.

The screenshot shows the top navigation bar with links for Check Out (0), Items (3)(0), Account (\$28.40), Claims/Lost (1/0), Holds (4), and Messages. Below the navigation bar, there is a 'NEW MESSAGE' button, a trash icon, and an information icon. To the right is a 'Filter Messages' input field. Below these elements is a table with two columns: 'MESSAGES' and 'PATRON HAS READ'. The table contains one row with a checkbox, the text 'Renew your items online at http://qa-orion/polaris', and the value 'No'.

4. Select **NEW MESSAGE**.

The area below the button expands.

The screenshot shows the expanded 'NEW MESSAGE' form. It includes the 'NEW MESSAGE' button, trash icon, and information icon. Below these is a 'Filter Messages' input field. The main form area has two tabs: 'LIBRARY ASSIGNED' and 'FREE TEXT'. Below the tabs is a dropdown menu labeled 'Select a message description'. To the right of the dropdown are 'ADD' and 'CANCEL' buttons.

5. Select **LIBRARY ASSIGNED** and select a library-assigned message from the drop-down list, or select **FREE TEXT** and type the message text.
6. Select **ADD** to add the message.

The message is added to the list.

## Delete a patron message

To add a patron message:

1. Open the patron's record.
2. Select **More** to open the menu.
3. Select **Messages**.

The patron's messages are displayed.

4. Select the message you want to delete.
5. Select the delete (trashcan) button.

The patron message is deleted.

## Patron Associations

You can create associations between two or more patron records so that when one record is open, all records associated with that record are conveniently accessible. For example, you might associate all members of a family, so when checking out items to parents, you can quickly renew items or pay fines for their children. Depending on your library's settings in Polaris Administration, associated patron blocking may be implemented.

To see the associated patrons, select **More|Associations**. The Associations view displays a list of associated patrons. From this view, you can: add a new associated patron; go to the associated patron's record; edit a patron association; or delete an association.

## Checking In Items and Managing Fines

When you first log into Polaris Leap, you can select the **CHECK IN** button to open the Check In page where you scan items to check them in. Other processing, such as the application of free days and floating collections, is the same as for items checked in using the Polaris ILS.

Messages may appear for items that are overdue and have a fine; items for which holds have been placed; or items that have other blocks. If you have the appropriate permissions, you can resolve fines and fees from the Check In page.

- "Resolve billed items during check in" on page 151

## Check in items

To check in items:

1. Log into Leap, and select **CHECK IN**.

The Check In page opens with the cursor in the barcode box.

The screenshot shows the Leap application interface for checking in items. The top navigation bar is dark teal and contains the 'leap' logo, a search bar with the text 'Scan or search for patrons or items', and a 'FIND' button. On the right side of the header, there are links for 'Utilities', 'Help', and the user's name 'laura.peer (COB)'. Below the header, there is a light gray bar with a 'NEW PATRON' button on the left and a 'CHECK IN' button on the right. The main content area is titled 'Check In' and features a barcode input field with a cursor, a 'FIND TOOL' button, 'Free Days' and date fields, and 'CLOSE' and 'CLEAR' buttons. At the bottom of the form is a table with the following columns: BARCODE, DUE DATE, STATUS, COMMENT, TITLE, MATERIAL TYPE, SHELF LOCATION, CALL NUMBER, PATRON NAME, and ASSIGNED BRANCH.

2. (Optional) To change the number of free days, type the number in the **Free Days** box. The date changes accordingly.
3. Scan the item barcodes.

**Note:**

You can also select **FIND TOOL** and use the Find Tool to search for an item to check in.

## Manage fines during check in

To check in multiple items and manage fines:

1. Log into Leap, and select **CHECK IN**.

The Check In page opens with the cursor in the barcode box.

The screenshot shows the Leap application interface for checking in items. At the top, there's a navigation bar with the Leap logo, a search bar, and user information. Below this, there's a 'Check In' section with a title, a barcode input field, a 'FIND TOOL' button, and a 'Free Days' field. A table with columns for barcode, due date, status, comment, title, material type, shelf location, call number, patron name, and assigned branch is visible. Buttons for 'CLOSE' and 'CLEAR' are also present.

2. Scan each item's barcode.

If the patron has been billed, the Resolve billed item dialog box opens. See "Resolve billed items during check in" on page 151.

If the item is overdue, the Overdue Fine dialog box opens. You can resolve the overdue fines immediately or select **CONTINUE** to continue checking in items.

The screenshot shows the 'Overdue Fine' dialog box. It displays item and patron information, including barcode, title, due date, and name. The fine amount is shown as \$4.50. At the bottom, there are four buttons: CONTINUE, WAIVE, CHARGE ACCOUNT, and CANCEL.

3. If you select **CONTINUE** on the Overdue Fine dialog box, the box closes and you can continue to check in items. Fines will be totaled for each patron, and you can resolve the charges after checking

in all the items.

- To view and resolve the fines, select **RESOLVE CHARGES**.

The patrons for whom the checked-in items included fines are listed at the bottom of the Check In page with totals for new fines and old fines.

### Check In

Free Days:

BARCODE	DUE DATE	STATUS	COMMENT	TITLE	MATERIAL TYPE	SHELF LOCATION	CALL NUMBER	PATRON NAME	ASSIGNED BRANCH
0000100368505	9/9/2014	Out -> In-Transit	To Schenectady Branch - Central	Stars	Book		J 523.8 S	Ms. Nancy T Shea	Galway Public Library
3364100100000751	10/17/2014	Out -> In-Transit	To Southern Adirondack Library System	The Vietnamese gulag	Book		959.704 D	Christina M Healey	Southern Adirondack Library System
0000203058680	8/13/2008	Out -> In-Transit	To Schenectady Branch - Central	Searching for dragons [sound recording]	Audiobook		RC J Fict Wre	Mr. Bernard J Foster	Saratoga Springs Public Library

<input type="checkbox"/>	PATRON NAME	BARCODE	NEW FINES	OLD FINES
<input type="checkbox"/>	Ms. Nancy T Shea	1000200336328	\$4.50	\$5.00
<input type="checkbox"/>	Christina M Healey	1000400738240	\$2.40	\$1.60
<input type="checkbox"/>	Sarah R Acosta	1001900144202	\$3.80	\$5.79

- Select the check box next to the patron for whom you are resolving charges, and do one of the following:
  - Select **PAY NEW** to pay the new charges, and enter the payment details in the Pay new fines dialog box.

Pay new fines

Balance: \$2.40

Amount:

Method:  ▼

Note:

**PAY** **CANCEL**

- Select the waive new button to waive the new charges.

- Select the charge new button to charge the new amount to the patron's account.

- Select the manage all fines button to go to the patron's financial account and resolve the new and old fines.

## Resolve billed items during check in

When you check in an item returned by a patron who has billed fines and/or fees, you can resolve the billed item.

To resolve a billed item during check in:

1. Log into Leap, and select **CHECK IN**.

The Check In page opens with the cursor in the barcode box.

2. Scan the item barcode, or search for and select the item.

If the patron has been billed for amounts owed to the library, the Resolve billed item dialog box opens.

**Resolve billed item**

Item Barcode: 0000602255028      Title: The Emperor's new clothes [DVD]

Due Date: 8/23/2013      Billed Date: 9/10/2013      ☒ Billed

Patron Name: Mr. George P Anderson      Patron Barcode: 1000600712177

	Replacement:	Processing:	Overdue:
Charge:	\$29.99	\$0.00	\$5.00
Paid:	\$29.99	\$0.00	\$0.00
Waived:	\$0.00	\$0.00	\$0.00
Amount due:	\$0.00	\$0.00	\$5.00

Amount:

Actions:

Payment method:

**Total Fine: \$34.99**

**CONTINUE** **CANCEL**

Under each column, a drop-down list box contains options for performing actions applicable to the charge type.

3. To resolve a charge during check in, select one of the following options in the **Action** box:
  - **Waive**
  - **Leave as is**
  - **Pay**
  - **Charge**
4. Select **CONTINUE** to check in the item and perform the selected action on the charges.

## Check Out/Renew Items

When you open an existing patron's record, **Check Out** is the active option in the toolbar and the cursor is in the box where you can scan a barcode to check out an item. You can also select **FIND TOOL** and search for the item to check out.

- "Renew items from the items out list" on page 79

## Messages and blocks when checking out/renewing

As you check out items in Leap, messages or blocks may appear due to the status of the item or the patron. For example, the item may be in-transit, or the patron may owe fines.

**Patron is blocked**

Do you want to continue with this operation?

Patron owes money. Amount due: \$10.00

Patron has exceeded maximum fees permitted. Amount due: \$10.00

Patron has unread messages

CONTINUE

CANCEL

If a message or block appears in Leap, you can select **CONTINUE** (if you have the appropriate permissions) or **CANCEL**.

These messages and blocks appear in Leap according to the same criteria that they appear in the Polaris staff client. For more information on the types of messages and blocks that may appear when checking out items in Leap, see the topic *Check-Out Blocks and Messages* in Polaris ILS Help.

## Check out items

To check out items to a patron:

**Tip:**

If you have the required permissions, you can set a special due date or loan period that remains in effect for the entire session for which you are signed into Leap. See "Leap User Interface" on page 9

1. Open the patron's record.

The Check Out view is selected, and the cursor is in the **Scan or enter item barcode** box.

Scan or enter item barcode

↩

2. Scan the item in the barcode box, or select **FIND TOOL** and search for the item to check out. See "The Leap Find Tool" on page 34.
3. If you get the message that the item is from another branch, select **CONTINUE**.

A **Checkout successful** message is displayed (when there are no blocking conditions), the item is listed as checked out, and the Check Out count indicates the number of items the patron has checked out.

## Set a special due date/loan period during check out

To set a special due date or specify a special loan period when checking out items:

**Note:**

You can also select **Settings** under your username to specify a special loan period for all items checked out during your logged-in session. See Leap User Interface.

Open the patron's record.

The Check Out view is displayed.

1. Select **SPECIAL**

The area below the button expands.

The screenshot shows the user interface for a patron's record. At the top, the patron's name is NASIR AZIZ with ID 1229195408668, associated with COMMUNITY LIBRARY. Navigation links include REGISTRATION, REFRESH, and CLOSE. Below this, a status bar shows Check Out (0), Items (2)(0), Account (\$0.00), Claims/Lost (0/0), and Holds (0). The main area contains a search bar with 'Scan or enter item barco', a 'FIND TOOL' button, and a 'SPECIAL...' button. The 'SPECIAL...' button is expanded, showing a calendar for October 2014 and a 'Loan period' section. The calendar has a date picker for October 2014, with days of the week (Su, Mo, Tu, We, Th, Fr, Sa) and dates (1-31). The 'Loan period' section has a text input field and a dropdown menu. Below the input field are two radio buttons: 'Apply to next item only' (selected) and 'Apply to all items for this patron'. At the bottom right of the modal are 'OK' and 'CANCEL' buttons.

2. Set the special due date using one of these methods:
  - Select a date using the calendar control.
  - Type a number in the **Loan period** box, and select **Days**, **Hours**, or **Minutes** in the drop-down list box.
3. To use this special loan period for the next item checked out to this patron, select **Apply to next item only**.

4. To use this special loan period for all items you check out to this patron during this session, select **Apply to all items for this patron**.
5. Select **OK**.

## Reset a special due date/loan period

To reset a special due date:

1. Open the patron's record.

If a special due date has been applied for the next item or all items that will be checked out to the patron, the date displays next to the **SPECIAL** button.

2. Select **RESET**.

The special due date no longer appears, and the loan period is set to the default.

## Holds Picklist

With the picklist, you can take a tablet into the library stacks and indicate whether items on the pending hold request list have been located. The picklist page is similar to the Request to Fill (RTF) list in the staff client.

To open the Holds Picklist, select the **Utilities|Picklist processing**.

When you open the Picklist, the Pending requests are listed.

Each request is displayed in a row with information about the request in the following columns, from left to right: Collection, Shelf Location, Call Number, Author, Title, Format, and Item Barcode. If the hold request is for a serial, the call number includes the volume and copy, and the title includes the serial title and designation.

### Note:

To return to Leap Circulation, close the dialog box, and select the back button.

- "Cancel hold requests in the picklist" on page 169
- "Return a located item to the Pending list " on page 165

## Sort and filter the picklist

To sort and filter the picklist:

In the **Branch** drop-down list box, select the branch or branches with the pending hold requests you want to see.

To facilitate processing multiple items located in the same area of the library, you can sort the list by any of its columns. Or, you can start typing in the Filter requests box to filter the list to see only the requests with the filter text. Then, you can go to the area of the library that contains these items.

### Example:

Start typing a call number. If you type **91**, the titles beginning with this call number are listed.

## Mark a hold request with *Ask Me Later*

Use the *Ask Me Later* option when you cannot immediately locate the item, but you do not want to deny the request.

To mark a hold request with *Ask Me Later*:

1. Select the check box next to the hold request(s) you want to mark as *Ask Me Later*.
2. Select **Ask Me Later**.

The request is removed from the Pending list and moves to the next step in the RTF process, which allows the request to go to the next branch as soon as possible. This leaves the item eligible to fill the request. If no other branch in the RTF fills the request, the request will be routed back to you, giving you a second chance to find the item. If no other items can fill the request, you will see a message alerting you that your library has the only item. In this case, the request remains Pending at your branch until some other action is taken (the request is denied, canceled, or set to inactive).

## Indicate an item was located

To mark items as located in the picklist:

1. Open the picklist.

Your login branch is the default branch displayed in the **Branch** box.

2. To select a different branch, select a branch in the **Branch** list box.
3. To filter the hold requests by a category, such as collection, that corresponds with the location of items in the library, start typing the filter term in the **Filter requests** box.

4. Locate the items on the shelves that match the hold requests in the list.
5. Select the check box next to each found item in the picklist.
6. Select **Located**.

<input checked="" type="checkbox"/>	Adult Nonfiction		J 636.8 Wra	Wratten, Peggy.	Cats	Book	0003300066770

The following occurs for each hold request marked as Located:

- The hold request status changes to Located
- The item status remains In
- The request moves from the **Pending** list to the **Located** list.

After marking the requested items in the picklist as Located, you can take the located items to the pickup location where they can be scanned at a Polaris workstation where they become “held.” All other holds processing and notices function according to established methods in the Polaris staff client.

## Return a located item to the Pending list

To return a hold request to the Pending list when it was marked as "located" in error:

1. Select **Located** at the top of the picklist page to see the list of located items.

Pending **Located** Branch: Community Library

**RETURN** **REFRESH** Filter requests

Total items | 1 total

<input type="checkbox"/>	COLLECTION	SHELF LOCATION	CALL NUMBER	AUTHOR	TITLE	FORMAT	ITEM BARCODE

## Deny hold requests in the picklist

If an item is not found or it is found but it is damaged or otherwise unavailable to fill the hold request, you can deny the request from the picklist.

To deny one or multiple hold requests from the picklist:

**Note:**

If you are denying multiple hold requests, but for different reasons, deny each hold request separately.

1. Select the check box next to the hold request or requests you want to deny.
2. Select **DENY**.

A dialog box opens.

3. Select the reason the hold request was denied from the **Reason** drop-down list box.

The hold request or requests are canceled.

## Cancel hold requests in the picklist

To cancel one or more hold requests in the picklist:

1. Open the picklist. See "Holds Picklist " on page 159
