

# Library Staff: What You Need to Know About Aspen Discovery

Our library catalog will be getting an update soon! Aspen Discovery is a new discovery layer that will help patrons search for and discover the items they need more quickly.

All current checkouts, holds, lists, and reading history (if enabled) will carry over to the new system. When patrons log in to the new catalog, they will sign in with their current library card number and PIN/password.

**Training Dates: Visit L2 and search “Aspen User Experience Training” to find upcoming training sessions**

## New Features

Visually browse staff-created lists

Save searches to track favorite authors, series, and formats

Search library events right within the catalog

View & check out ebooks all in one place

Get personalized content recommendations

Patrons: view and pay fines from within an account

See all available formats of a title

Responsive viewing on any mobile device or tablet

Access research databases and archives

Easily create, manage, and share your own lists

Link accounts to quickly view all holds, checkouts, and fines
